Caravan

KABE

Always a step ahead...

Welcome to KABE!

Our goal is to always be a step ahead and surprise you with technology and features beyond the ordinary. With functions that elevate your lifestyle and increase your quality of life, no matter where you are. It can be a challenging adventure, or peaceful and relaxed. Just like home, but in a new place. The focus is always comfort and safety, spiced with smart solutions for a greater experience and smoother holiday on the road, in any season.

KABEs caravans are some of the most well-equipped in the market, at every price level. We invite you to find your favourite!

EXTERIOR

KABE design

Design, safety and quality are the trademarks of every KABE. You will immediately recognize our up-to-date, yet classic caravan on the road. And as you get to know your KABE, with all its thoughtful details and conveniences, you will fully realize the value of our elaborate design.

It's all about the details.

KABEs unique exterior makes a statement anywhere. Every KABE caravan is equipped with smooth and elegant exterior panels. Additionally, our exclusive Imperial-series, features bold Innovation Design graphics, printed directly on the exterior panels with extra UV-protection to keep the colour fresh for many years.

Our contemporary Estate-series is accented with black window frames and unique decals with a 3D-look for a modern and confident look.

All models have extra large windows resulting in a light and airy interior.

Our specially designed brake lights feature a KABE logo and the aerodynamic body and rear wing is developed to reduce wind resistance.

At KABE, we work hard to constantly develop and improve our caravans and strive to be at the forefront, or even a step ahead of the competition. To offer you, the KABE-owner, the very best – a superior caravan with an exclusive feeling both inside and out.

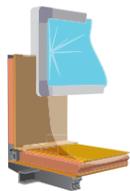

NEWS! For model year 2023, our Royal-caravans are updated with new design details and all models show off new KABE Kromex-technology logos. Gemstone, Royal and Imperial feature brand new series emblems.

NEW MODELS! Introducing Royal and Imperial 600 CXL, with a brand new L-shaped kitchen and a large comfortable sofa. Between the kitchen and living area, an adjustable TV is added. When it's not in use, it fits neatly into a smart compartment in the sofa's backrest.

KABE Estate 470 is now available in our GLE-solution, with two single beds!

EXTERIOR / BODY: How we build!

iWall technology

The body is built according to the "sandwich principle": outer sheet, 36 mm Ecoprime insulation, inner sheet and wall covering that absorbs any condensation. Ecoprime insulation is a moisture proof material with a "closed cell" design. Our iWall construction provides maximum stability and the body is absolutely water proof. Aluminium sheets on both sides of the Ecoprime insulation significantly reduce the impact of interior/exterior temperature differences.

Connecting beams in floor

Extra beams between the lengthwise chassis joists provide more stable floors and an extra rigid chassis. Connecting beams for best possible stability. The chassis has outriggers from the lengthwise side beam, to relieve the weight pressure where the floor and walls are joined. The body can withstand very high loads, for example large amounts of snow on the roof.

KABE Safety Driving System

Chassis with warm galvanized steel profiles. Electronically controlled anti-skid system provides extra safety on the road (not in Estate, optional in Gemstone). Axles that deliver comfortable and secure driving. Longer and stabilising tow bars. All models are equipped with a friction clutch. Our single axle caravans include 8-layer tyres.

Butyl seals

Butyl tape retains its elasticity throughout the life of the caravan. That's why we choose to use this material throughout all sheet metal joints, overlaps and screw bushings. Approx. 20 kg of sealing compound is used in each caravan.

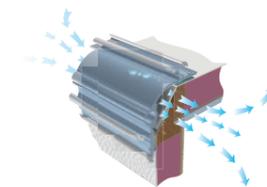

Plastic beams

KABE uses plastic beams with integrated air ducts in all moisture-exposed parts of the body. Patent is pending for the KABE designed plastic beams. Our plastic beams have superior insulation properties.

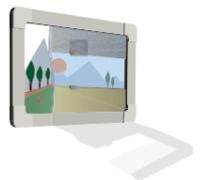

Sealed roof joints

The joint between the roof and the wall is sealed with an elastic butyl compound. The exterior roof then overlaps the side walls to ensure that water cannot penetrate. Zero leaks – guaranteed. KABE's unique iWall construction has an unlimited number of attachment points for installation of optional equipment.

Aluminium profile

Our in-house designed, extra wide profile in the joint between ceiling and wall. The profile has an air gap that ventilates the joint between wall and ceiling. The profile is mounted with double sealing strips and screwed together from two directions. Built-in awning rail on both sides of the caravan.

Unique windows with smart details

Our smooth and tinted exterior window pane protects against heat. Integrated screens and blackout curtains are included. All windows, except the kitchen window, can be opened and an openable front window is now standard (not in Estate).

INTERIOR

Make yourself at home

Enjoy superior comfort and top quality in every detail, every day in your KABE caravan. All materials are selected with the utmost care, to live up to your expectations both in terms of aesthetics and durability. The design is current yet classic. You can be sure that your KABE will always feel up-to-date, stylish and elegant.

KABEs interior is characterized by an exclusive, warm and modern look with our Nordic Oak light wood laminate. Every detail is carefully selected to complement the Scandinavian colour palette. Floor and wall coverings, plexiglass, counters, tables and consoles feature shades such as Latte and Velvet Grey. Recessed cabinet doors and drawers and a faux stone kitchen counter are included.

When you choose a KABE Estate model, the design is contemporary and inspired by the stylish simplicity of the 1950s functional interior. Overhead kitchen cabinets in matte white create contrast against lower cabinets in the darker wood laminate Nussbaum Ombre. Open floor plan with clean lines and interior details in black complete the look of this caravan.

All our models feature a fitted and sound insulating ceiling that effectively eliminates both inside and outside noise.

Interior lighting contributes to the atmosphere in your home and is equally important in your caravan. Every KABE is outfitted with light fixtures with built-in spotlights and night lights with the light-switch conveniently located by the bed. We also include an internal light-switch for the exterior lighting, lights in gas compartment and ski storage, and wardrobes lights and under-bed storage lights.

We fill our caravans to the max with extra equipment and practical features and solutions to provide you with a comfortable yet functional lifestyle. Many are already included in the base version, when you choose a KABE. Read more on pages 22-25.

A caravan made by KABE is an investment in quality of life, we leave nothing to chance.

KITCHEN

with everything you need

Every KABE kitchen is well-equipped with lots of storage and carefully thought through design. Fine dining requires a convenient space to prepare. Extra counter space is readily available where it's most needed. Our kitchen drawers feature a soft-close mechanism and central locks. You will find many exclusive details, such as rounded kitchen sink with a stylish tap, pull out cutting board in carefully selected beechwood and a functional drawer for your cutlery. Naturally, you can sort your waste with separate bins, just like at home.

In Gemstone, Royal and Imperial, recessed cabinet doors and drawers plus a durable and easy to clean faux stone counter top are included. The microwave is placed under the refrigerator, to maintain the clean and stylish look of the kitchen. Microwave is standard in our Imperial models and an option in Estate, Gemstone and Royal.

The innovative refrigerator from Dometic, shows off a fridge and freezer with double hung doors that can be opened on either side. A flexible solution that facilitates your compact camping-life. Compressor refrigerator, also from Dometic, is available as an option.

Three-burner stove with a split lid provides smart, extra counter space in our Gemstone models.

Our Royal series features a new Thetford-stove with three gas burners, one electric burner and convection oven. The convection oven needs to be connected to 230V (if not, it works as a normal gas oven). Our kitchens are designed for your dining pleasure, even with a larger group around the table.

NEWS! Introducing Neonflex – a thinner LED silicon profile with updated mouldings on both sides of the refrigerator.

Our Imperial kitchen (above) is not your ordinary caravan-kitchen! With the concept of premium taken one step further, we have created a kitchen for the true connoisseurs. KABE Imperial is equipped with a luxury induction stove top that features two separate gas burners along with an exclusive built-in oven.

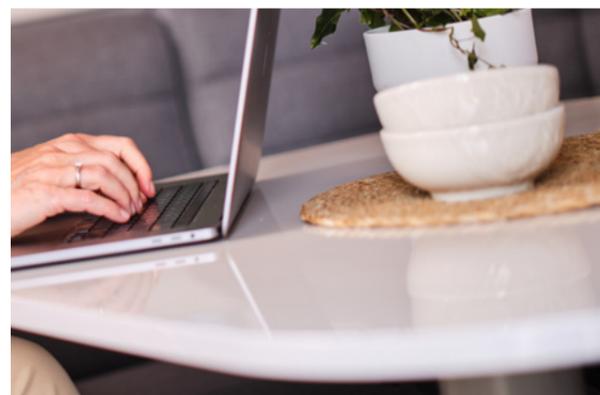

KABEs Estate kitchen (left) is inspired by the angled cabinets of the 50s with sliding doors. The overhead cabinets are finished in matte white and blend perfectly with the rest of the interior throughout the caravan. Lower cabinets and drawers feature the darker wood finish Nussbaum Ombre. A black tap and matte black door handles complete the look.

LIVING AREA

With room for everyone

The living room is the natural place to relax and enjoy your company. A comfortable seating area is important for everyone's well-being. Our sofas are oversized and feature plush and ergonomic seat cushions for you to enjoy. Smart storage under the seats make it easy to stay organized. The table is equipped with an extension for extra table space (Gemstone, Royal and Imperial).

From our unique and carefully developed collections, you can choose the upholstery that suits you and your family best. Curtain sets are offered in two different styles (not in Estate). More on pages 18-19.

In Gemstone, Royal and Imperial the cushions are made with first-rate Premium Foam filling. All our cushions have an anti-slip fabric on the underside to make sure that they always stay in place.

Leather upholstery and slide-out function is included in our Imperial models. You can easily adjust both seat and back cushions.

The seating area in your KABE converts to a spacious extra bed. A convenient feature for a large family or the occasional overnight guest. Details such as rounded sofa corners and indirect lighting under the overhead cabinets add to the luxurious feeling. Speakers are installed in the front corners of the caravan. You can be sure to enjoy every moment.

A wireless cell-phone charger is included in all Royal and Imperial models. It is located in the front of the caravan.

In 2022, we introduced a front window that can be opened in our Gemstone, Royal and Imperial series.

NEWS! This model year, Gemstone, Royal and Imperial are updated with a new bar cabinet with bottle storage from the side. It is located in the entry area.

NEWS! Our corner sofas feature a new adjustable headrest. It can be adjusted up or down and also to the side (an option with Estate and Gemstone Comfort Packages).

BEDROOM

A place to relax

We all know what a difference a good night's sleep makes. Comfortable beds with supportive mattresses are always included with your KABE. In many other brands, this is an option with an additional cost. You deserve the best!

In KABE you can choose the floor plan that works best for your family. No matter which solution you choose, our beds are always top quality with thick spring mattresses and fitted bed slats (not in bunk beds). To make room for everyone in the family, we provide bunk beds with up to three levels. Efficient "compact living" and a cosy place for the little ones. USB-outlets by the bunked facilitates your children's play or movie time in case the holiday weather does not turn out exactly the way you hoped for.

Stylish bedspreads are always included with your KABE.

Our bed boxes have a fold-up cover that makes it easy to clean under the beds. At the same time it provides extra storage space and eliminates the risk of the beds freezing in place during winter. Many models are equipped with an outside hatch for easy access to the space from outside.

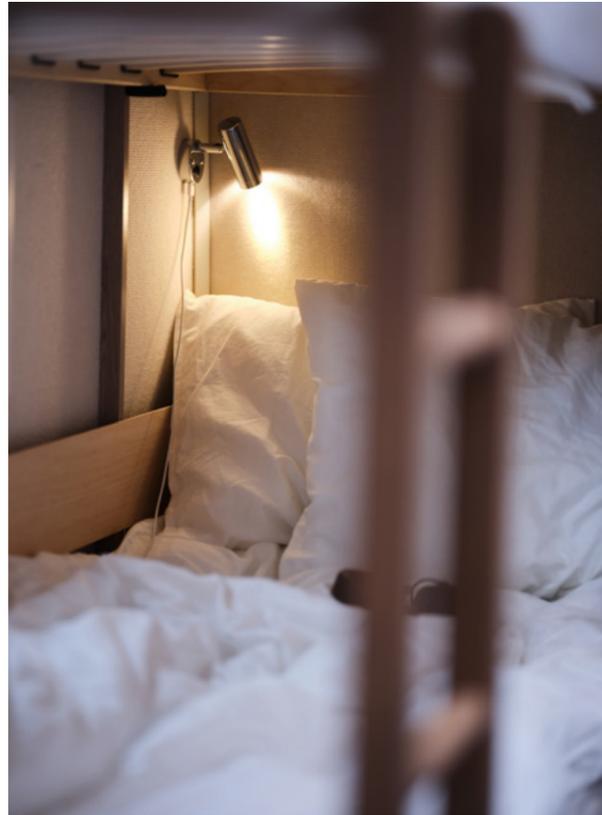

Not only is the bed a place to sleep, you may want to curl up and read a book or a magazine for a few moments of downtime. To make it extra comfortable, our headboard is covered in soft, padded faux suede with a printed 3D pattern that adds to the up-to-date and cosy look.

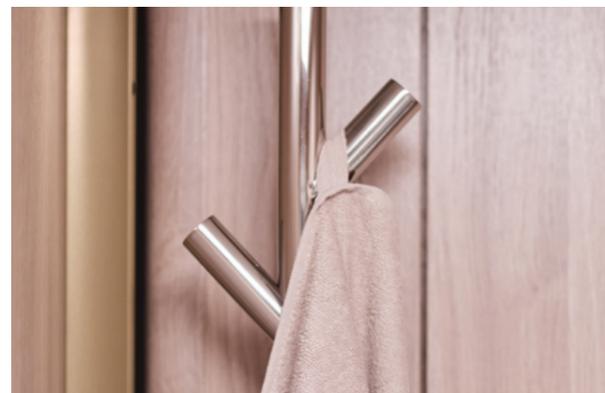

You will also find details such as cosy bedroom lights and an adjustable bed is included in Gemstone and Royal. In Imperial, electric adjustable bed is standard (not for E9-bed).

Night lights or not? When you want to turn on the lights, the light switch is positioned within reach – right by your bed.

Our bedrooms are equipped with roomy wardrobes and overhead cabinets to fit everything your family needs on the trip.

NEWS! In Gemstone and Royal you will find new chrome reading lights. Our Imperial models feature a modern new black-chrome reading light. Our XL-beds are updated with DuoSpot with three controls. A smart new touch-function light switch is standard in Royal and Imperial.

BATHROOM

A real bathroom on the road

For most, a shower and toilet are key to a convenient and comfortable caravan-life. Do you prefer a layout with a large bathroom and shower? Or would you rather use the space for other things and place the bathroom in between the living and bedroom areas? We offer many flexible alternatives so that you may choose the floor plan that best suits your family.

We want you to feel right at home.

Our characteristic, well thought-out details and the clean and stylish design throughout your caravan are naturally included in the bathroom as well. Our Gemstone-, Royal- and Imperial-bathrooms feature Nordic Oak with a light and warm finish. The darker Nussbaum Ombre wood laminate sets our Estate-bathroom apart. Exclusive hardware such as handles and hangers, bathroom door lock, and bathroom counter top in a modern concrete look complete your KABE bathroom.

In our TDL-models, the bathroom is located all the way in the back and stretches over the entire width of the caravan. A shower with faux concrete wall design is included. Many of our other models include a shower as well.

Exterior shower outlet for both cold and warm water is standard in Royal and Imperial. You can easily rinse off your boots or a muddy dog after an autumn walk in the woods.

NEWS! Every TDL-model features a brand new mirror design and a faux concrete back wall (not in Estate).

NEWS! Neonflex – a thinner LED silicon profile with updated mouldings is featured in our TDL-bathrooms (not in Estate).

NEWS! In our GLE-bathrooms, one of the mirror cabinet doors is replaced with a wood laminate for a more finished look.

NEWS! Estate 470 GLE features a new, sideways installed toilet.

It's the details that create the cosy and inviting KABE-feeling. In addition to sitting and sleeping comfortably, we think it's equally important to offer textiles and upholstery that live up to the design and durability expectations of modern caravan-families.

This years collection includes four fabric options and three in leather. Our Estate-series features three fabric collections with unique stitching details to match the style and look of the caravan.

NEWS! Our Nashville, Glendale, Charleston and Hampton collections are updated with fresh new curtains. Our brand new adjustable headrest, that can be raised, lowered and moved side to side, is yet another stylish and functional detail (an option with Estate and Gemstone Comfort Packages).

MADE IN SWEDEN

Swedish innovation

Life in a caravan should be convenient and worry free. We go all the way – and then some – in our quest to fill our models with as many smart solutions, functions and conveniences as possible. There is a thought behind every detail, to provide you with the very best.

Behind the stylish and elegant exterior, there are many quality features. You will find unique construction and advanced technical solutions. A few examples are energy-efficient windows with an insulated and ventilated polyurethane frame that is sealed against double pane glass for best possible insulation. Smoke alarm in the bedroom area. Pull-out, heated ski box with lighting. An indicator on the light switch shows whether the lights are on or off. Drying cabinet with KABE-designed drip tray to dry your shoes and heated shoe compartment inside the entry door. Coat closet in the entry with room for outerwear. All the small details that you may not immediately recognise when you compare KABE to other brands, that are included to make every-day life in your caravan easier.

A ventilation hatch, located in the bedroom area, is a convenient feature to quickly get some fresh air inside your caravan. Another important detail is a built-in kitchen fan with two-speeds and lighting. KABE's refrigerator ventilation is the best in the market, with ventilation through the roof.

Our goal is to provide a caravan experience that is as relaxing and comfortable as possible. After all, it is a mobile home that must travel safely, securely and eco-friendly on the roads. That's why many of the "extras" are simply included in our caravans.

Would you like to know more? See pages 22-25.

INTERIOR:
How we build!

The best seating comfort in the market with premium upholstery and textiles

Ergonomically designed sofas with durable, recycled Premium Foam cushions. Premium quality upholstery throughout. Seven collections to choose from. Possibility to combine curtain sets with upholstery options. Curtain sets are available in two looks – modern panel curtains or classic, elegant curtains with a valance. Estate has three fabric collections and panel curtains. Gemstone has four collections.

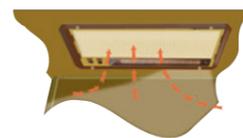

Adjustable sofas

Adjustable sofas provide more efficient cleaning. Head rest and decorative accent pillows (standard in Royal and Imperial). Slide-out is standard in Imperial.

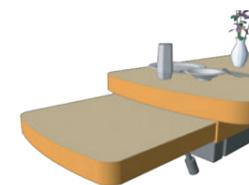

Lots of lighting throughout

Light fixtures with built-in spotlights. Our Royal and Imperial models feature lighting in windows in the front seating area. Night light with the switch located by the bed. Interior light switch for exterior lights, lighting in the gas compartment and ski box. Lighting in wardrobes and under bed storage.

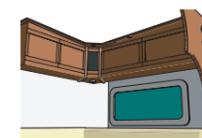

Well-equipped kitchen

Built-in, two-speed kitchen fan with lighting and removable grease filter for easy cleaning. Stove with electric ignition. Market-leading refrigerator ventilation system with roof vents.

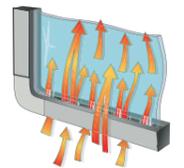

More in the kitchen

Kitchen table with an integrated extension provides additional space (not in Estate or pedestal tables). Practical pull-out wire shelf in the kitchen. Kitchen counter with plenty of space. Large refrigerator with freezer, 177 litre (standard in Royal and Imperial).

KABE-quality interior and carpentry

Interior and furniture construction from KABE's own carpentry.

Sealed windows

Energy efficient windows with a polyurethane frame that creates a seal against the double pane glass provides maximum insulation. The window frames are insulated with built-in ventilation.

INTERIOR:
How we build!

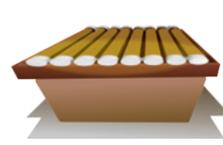

Convenient, safe and secure in the bedroom

A ventilation hatch is located in the bedroom area and quickly provides fresh air in the caravan. A movable Velcro magazine pocket is provided at the side of your bed. Under bed storage compartment with lighting. Fire alarm and ground fault circuit breaker.

Superior bed comfort

Our beds are equipped with a spring mattress and thick top pad, for a good nights' sleep (not in bunk beds). For extra comfort and reading in bed, our beds are adjustable (not Estate). Electric adjustable bed is standard in Imperial, and an option in Gemstone (Comfort Package) and Royal. Several models can be equipped with a combined loft bed / upper cabinet.

...more comfort details

Fitted bed slats support your body in bed. Beds with fold-up function and soft-close for more efficient cleaning. Under bed cargo space with our in-house designed convectors at the opening of the cargo hatch provides better heat in the bedroom area. Headboard with cosy lighting.

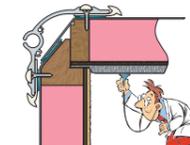

Bathroom with a shower

Our different models include a shower, water-proof wall covering, extendible hand shower and shower curtain. Many floor plans feature a walk-in shower. Bathroom door lock. Outside shower outlet with both warm and cold water (standard in Royal and Imperial).

Drying cabinet

Drying cabinet with KABE-designed drip tray to dry your shoes. A special convector and an adjustable roof valve for maximum heat circulation. Heated shoe compartment in the entry and wardrobe for coats and jackets.

Soft, light reflecting and insulating ceiling

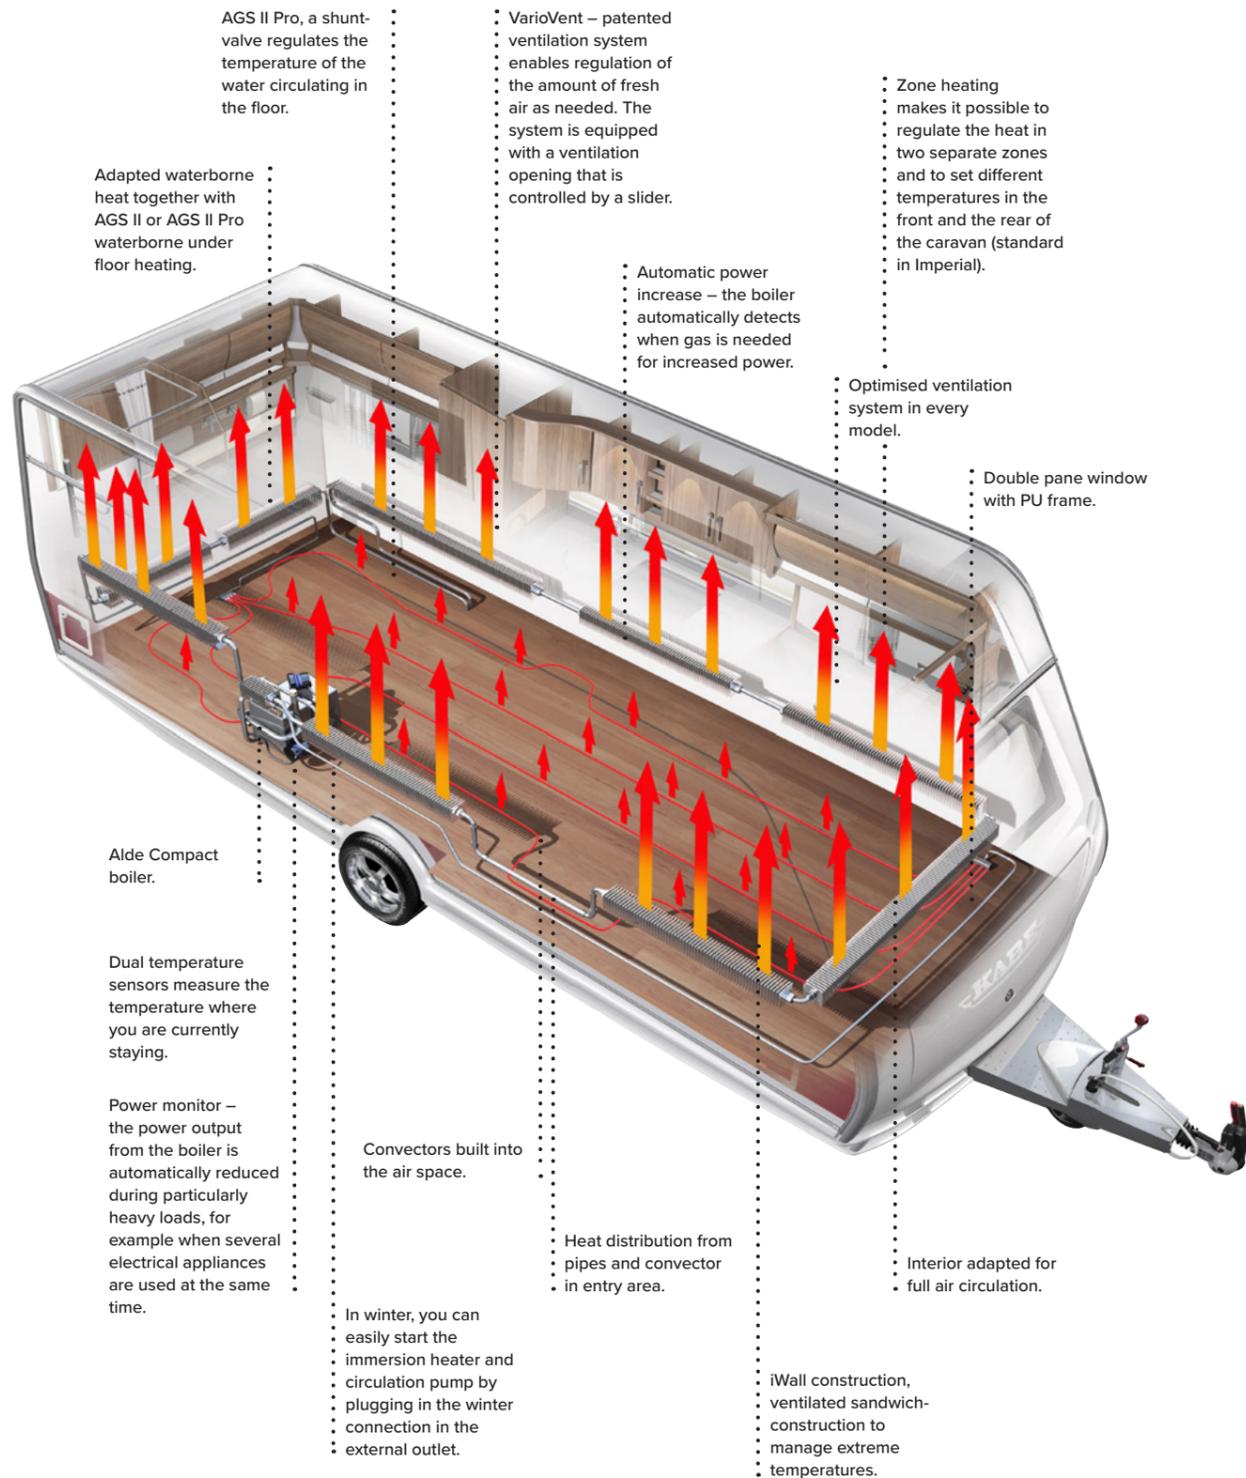

KABE is the only manufacturer to feature an exclusive 'soft ceiling' design, with better acoustics inside the caravan. Our 'soft ceiling' absorbs sound and improves the ceiling's insulation properties.

Ski box and cargo hatch

Pull-out, heated ski-box with lighting. An indicator on the light switch shows whether the lights are on or off. Cargo hatch under the bed with built-in air flow ducts. The cargo hatch gives easy access to the cargo space under the bed (standard in Royal and Imperial).

KABE Caravan heating systems

SMART COMFORT Year round

The Scandinavian climate is extremely challenging – we know. It can vary from warm and dry summer, to wet and breezy autumn and really cold winter with lots of snow. This requires superior heating, insulation and ventilation, for a caravan that is both safe on the road and comfortable to live in year round. With more than 60 years experience and continued product development, we can proudly say that every KABE caravan lives up to the toughest requirements, and more.

Every KABE caravan is constructed for maximum air circulation. The careful design and placement of furniture result in optimal air flow. Our under floor heating system distributes the heat evenly over the entire floor and our patented iWall construction provides the best possible indoor climate. When you and your family are ready to leave, you can be sure that every system and all equipment have been carefully developed to withstand the different tests from weather and wind.

Our technical innovations together with our unique heating and ventilation solution (Smart Climate System), make your KABE the best year-round caravan on the market.

Alde zone heating is standard in our Imperial models. With the system you can control the heat in two separate zones, in the rear and in the front of the caravan. The bathroom is always pleasantly heated on the return loop.

Our goal is to make your winter vacation as comfortable as your summer travels. We leave nothing to chance.

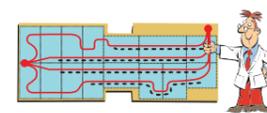

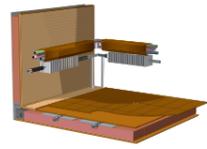

Would you like to find out more? See the following pages!

HEATING AND VENTILATION: How we think!

SMART -CLIMATE+ SYSTEM

Intelligent heating system

We know that we need to do everything we can to make you happy. That's why the following is always included, in every KABE caravan: AGS II or AGS II Pro waterborne under floor heating, maximised convector length and tightly fitted convectors, optimised ventilation system, interior adapted for maximum air circulation, iWall construction and ALDE Compact boiler.

Central heating

ALDE Compact 3030 boiler with a touch screen display and 3 kW power elements, operated with gas and resulting in max 5,5 kW (5500W). The heating system has a 12 V circulation pump, integrated water heater and separate expansion vessel. A cover is placed around the gas unit for the most efficient hot water effect. Roof vent in several models for maximum operational reliability.

AGS II Pro

With AGS II Pro (standard in Gemstone, Royal and Imperial) you can turn on the under floor heating separately. A shunt valve regulates the temperature of the water that circulates in the floor. To reduce energy consumption, the system is interval controlled. The water circulates in the system during certain pre-set time periods, which reduces the energy consumption in the boiler and protects the battery at the same time.

Integrated heating system

The floor heating system is connected to the convector system and circulates the air throughout the caravan when the heat is turned on. The system is powered by both gas and electric. KABE is constructed with extra wide convectors under all windows.

Superior heating and comfort

Developed in-house and patent pending, KABEs automatic waterborne under floor heating system, AGS II, features four loops that provide more even heat distribution. The heat circulates in aluminium pipes that reach all the way to the entry door, kitchen cabinets and bathroom. Heating plates distribute the heat evenly across the entire floor.

Inner sheet in walls

KABEs sandwich construction consists of an outer sheet, Ecoprime insulation, inner sheet and wall covering. The heat from the radiators advance up along the walls. The inner sheet in the wall distributes the heat evenly across the entire wall, whereas plywood walls, for example, do not conduct any heat at all. Floor heating is distributed via heating plates in the floor.

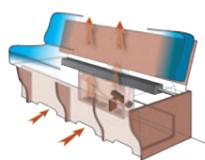

Ventilation in walls and floors

KABE is the only manufacturer to feature a ventilated wall covering that lets the warm air through that is distributed up along the walls. Low level condensation near the floor is captured by the ventilated carpet, positioned along the outer edges, and dries up when you turn on the heat. Our insulated walls and windows provide heat in the winter and cools the caravan in summer. KABEs wall covering also has a soundproofing effect.

Balanced heat distribution

KABEs caravans are built for optimal heat distribution. Our design allows the warm air to pass freely from the floor, under beds and sofas, and up to the ceiling through our ventilated overhead cabinets. Ensuring your KABE has the best and most evenly distributed heat possible in the living area as well as other spaces.

HEATING AND VENTILATION: How we think!

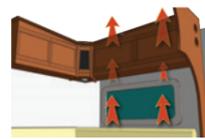

Optimal air circulation

Our interior design is adapted to provide optimal air circulation throughout the caravan, even behind cabinets and sofas. The distance between sofas and beds as well as the angle of the sofa backrest is carefully calculated.

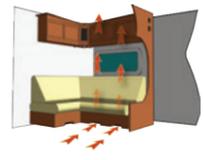

Angled cable trays

Maximum heat is absorbed from the convector and accelerates the warm air past the windows. Our unique and specifically located cable trays are angled to allow the air to flow freely past the windows. The electrical wiring, water and waste water pipes are hidden in the cable trays. In the winter, this construction quickly thaws residual water in the pipes.

Free airflow

Our overhead cabinets have built-in air ducts, to let warm air pass freely by the joint between the wall and ceiling and advance it towards the middle of the caravan. A partition in the outer edge of the cabinets, keeps the channel open even when the cabinets are filled.

Ventilated sofas and beds

Sofas and beds are spaced out. Sofa back rest and cable trays are angled to accelerate the airflow past the windows. The sofa back rest and the air space by the beds are heated when warm air is distributed along the wall.

Optimised ventilation system – patented KABE VarioVent

Our patented ventilation system enables regulation of the amount of fresh air as needed. The system is equipped with a ventilation opening which can be operated with a slider.

Automatic power monitor

The boiler automatically detects when gas is needed for increased power. In winter time, you can easily start the electric element and circulation pump by switching on the winter connection and connect electricity (230 V) to the exterior electrical outlet.

Load monitor

The boiler's power consumption of electricity is automatically reduced during particularly heavy loads, for example when several electrical appliances are running at the same time.

Additional heating features

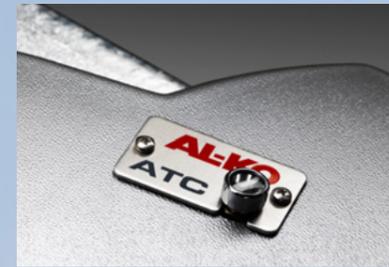

To avoid cold drafts, we take extra care with the insulation around fresh air intakes and heat convectors. The insulation contributes to optimal heat exchange and eliminates cold drafts in the caravan. With double temperature sensors, one in the bedroom area and one in the front seating area, the heat can be adapted to where you are in the caravan.

SAFETY

In every detail

We have great respect for the challenges you may face on the Scandinavian roads. A few examples are wet, slippery surfaces as well as rapid temperature changes. We devote much time and many resources to keep you safe on the road. When you invest in a KABE, we deliver a caravan that is built in one of Europe's most modern caravan factories, and developed to make your driving experience as safe and comfortable as possible.

All KABE caravans are equipped with our own KABE Safety Driving System. The system provides ultimate road safety. KABE Safety Driving System includes a chassis with longer tow bars and an anti-lurch axle. In our Royal and Imperial models, an electronically controlled anti-skid system is also included. If the caravan starts to skid, the system will detect the problem within a few thousandths of a second and stabilise the car and caravan immediately by braking smoothly. A friction clutch is standard in all KABE caravans, as well as 8-layer tyres that can withstand stress even better.

KABE Safety Driving System. Chassis with warm galvanized steel profile. Electronically controlled anti-skid system (not in Estate, available as an option in Gemstone) provides extra road safety. Axles that provide a comfortable and smooth drive. Longer, stabilizing tow bars.

Extra rigid chassis. Extra beams between lengthwise chassis joists result in a more stable floor and an extra rigid chassis. Connecting beams provide the best stability possible. The chassis has outriggers from the lengthwise side beam, to relieve the weight pressure where the floor and walls are joined. The body can withstand very high loads, for example, large amounts of snow on the roof.

Tyres and clutch. Our single axle caravans feature 8-layer tyres. 14" steel rims are standard in Estate and 15" aluminium rims are available as an option with the Design Package. 15" aluminium rims are standard in Gemstone and Royal and 17" Diamond Cut aluminium rims in Imperial (available as an option in Royal). All models include friction clutch.

CLIMATE CHAMBER

The caravans are carefully tested in our climate chamber.

-35 TO +55 DEGREES

Our caravans are tested in temperatures from -35 up to +55 degrees.

QUALITY

With the help of thermal cameras, we ensure that the construction reaches exactly the quality we strive for.

COMPLETELY WATER PROOF

Brand new technology is used to check that the caravans are absolutely water proof.

OPTIMISED WEIGHT DISTRIBUTION

Scales are used to balance and optimise the weight distribution between axles.

TOWING CAPACITY

Measuring equipment is used to check towing capacity.

DURABILITY

Pressure is used to test the strength of the caravans.

AIRFLOWS

Airflows are carefully checked with smoke.

VENTILATION

Correct ventilation is vital and it is carefully tested.

GAS

The gas system is pressure tested.

ELECTRICAL SYSTEM

Electrical systems and other important functions are carefully checked before our caravans can leave the factory.

DURABILITY TEST

Durability tests are performed and simulated with equipment corresponding to 10,000 km of normal driving.

RAIN CHAMBER

In the rain chamber, the caravans are tested with a high pressure sprayer.

BODY ENDURANCE TEST

Endurance tests are performed on every part of the body.

MANUFACTURING

We use state-of-the-art technology to manufacture our caravans.

CAREFULLY TESTED

Vital solutions

At KABE, we leave nothing to chance. You will find stylish and high quality design, everywhere you look. We perform thorough tests of every little detail and function. For example, we test every caravan in our climate chamber, to make sure they can withstand temperature differences of up to 90 degrees. The latest technology is used to make sure your caravan is absolutely water proof. We also test endurance, durability, air flow, electrical systems and much more. We accept only top marks on every test. It's a matter of KABE quality.

NEWS!

KABE Smart Level – for an even simpler KABE-life!

Starting in 2023, we are expanding our Smart D panel with KABE Smart Level which includes three useful functions. Smart Level tracks your LPG level (with the use of one LPG bottle, not for composite bottles), tire air pressure and the inclination of the caravan. The panel displays your LPG level. No need to worry about unexpectedly running out of LPG during your trip. It can be difficult to find a refill when you are traveling abroad or in the winter time. The tire air pressure sensor helps to ensure that your tires have the right amount of air pressure for an extra safe and fuel-efficient drive. Additionally, a level indicator is included with KABE Smart Level. When your caravan is parked, the display shows your caravan's inclination. An important factor for a pleasant and functional stay. With KABE Smart Level, we improve your quality KABE-life even a bit more!

KABE Smart Level is included in our Imperial-series and available as an option for Royal-models.

The home screen displays lighting controls and digital sliders for dimmers, inside and outside temperature as well as time.

All information and controls for heating are displayed on a separate page. You can easily adjust the heat with digital sliders.

With Smart D you can manage all functions in one place. You can control the refrigerator, AC, AirVent and more – all in one easy-to-view display.

Current status information about fresh water level, waste water level and battery voltage is clearly displayed. With the new function KABE Smart Level you can also see the LPG level (for use with one LPG bottle, not for composite bottles), tire air pressure and the inclination of the caravan (standard Imperial, option for Royal).

TECHNOLOGY

KABE Smart D

European Innovation Award

KABE SMART D control panel – **winner of European Innovation Award** – monitors your caravan. It's also used to manage many functions. The panel is designed with a focus on user-friendliness and features a touch screen display that is easy to understand. It shows fresh water level, waste water level and battery voltage. You can control lighting, AC, boiler and temperature. In addition, the system includes several alarm functions and will remind you to make a service appointment or let you know if a fuse has tripped. All conveniently displayed on one screen. Standard in Royal and Imperial.

Which language do you prefer to navigate your KABE Smart D? Just like your smart phone, you can simply select the language.

KABE Smart D Remote app enables you to manage the control panel remotely, from anywhere. You may start the AC on your way home from the beach or adjust the heat and turn on welcoming lights before your last run on the ski slopes! KABE Smart D Remote is built together with a 4G router with an internal antenna and a mobile modem (external antenna is available as an option). In addition to managing heating, lighting and keep track of the caravan's functions and alarms via your cell phone, you have access to a wireless internet connection on the road. KABE Smart D Remote is available as an option in Royal and Imperial*.

The large AGM 130 Ah battery will not freeze and has a large capacity to absorb higher currents and a lower self discharge. On the Smart D panel, the battery sensor displays how your battery is functioning and how long the battery charge will last for different consumption (included with SmartVent or the Eco-Package).

* With your purchase of KABE Smart D Remote, a 36 month subscription is included. After 36 months, you will pay a yearly fee for the use of the app. A separate mobile data subscription is needed as well.

TECHNOLOGY:
What we do!

MULTIMEDIA SYSTEM WITH DAB. Multimedia player with DAB (Royal). KABE premium sound system with DAB is standard in Imperial.

WIRELESS CHARGER. A wireless cell phone charger is standard in Royal and Imperial. The charger is located in the front of the caravan.

WIRELESS ROUTER. To maximize your media options, a router for wireless internet connection is standard in all models. An external antenna for the router is available as an option.

KABE Smart D intelligent electric control unit

User friendly electric panel. The electrical system detects battery power and is automatically charged when needed. The system tracks water levels, temperature and battery voltage (standard in Royal and Imperial).

Electrical box

Electrical box with 230 V socket and 16 A automatic fuse with ground fault circuit breaker, control lamps for electricity, 230 V / 12 V outlet, TV outlet for cable TV and outside TV (not in Estate). Controls that indicate the power supply. Electrical box with lighting (standard in Royal and Imperial). Battery charger for 25 / 30 A.

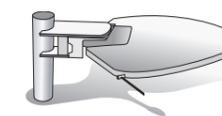

More sound and visual

Sound and media centre (standard in Royal and Imperial). Built-in speakers in the front of the caravan. DAB radio is standard in Estate and Gemstone. Wireless router is standard in all models. Adjustable TV mount is available in many of our models.

Gas control

The gas compartment is integrated in the front of the caravan. There is room for two LPG tanks as well as luggage. The gas compartment has a bottom frame to keep everything in place when you open the hatch. It also features lighting, an external gas connection, a leak indicator for manual control of the gas system and a removable fitted protective mat.

Charged for TV reception

Electronic TV antenna for both analogue and digital reception. Exterior connection for TV, cable TV and 12 / 230 V. Equipped with TV antenna outlet in three places: media console, bedroom area and the electrical box.

OWNERSHIP

Stress free and secure

10 reasons to choose KABE:

YEAR-ROUND COMFORT

KABE caravans are designed for the Scandinavian climate, to keep you equally comfortable in the middle of winter as on warm summer days. When it comes to insulation, ventilation and heating – we go all the way. For maximum stability and complete moisture control, the body is built with KABE's own iWall system. Every model features the Alde 3030 boiler and waterborne under floor heating is standard. Many of our important year-round functions are built into the design and do not attract attention when you first enter the caravan, but you will notice the difference right away when you start using your KABE.

QUALITY

Our goal is to deliver superior quality and design, in every detail. That's always been our focus. We develop and test new solutions in our own state-of-the-art facilities in Tenhult, Sweden and every KABE is built here. It is one of Europe's most modern caravan factories, with skilled employees and electricians as well as our own joinery producing interior fittings. Our subcontractors are among Europe's leaders in every category.

RESALE VALUE

You can be sure KABE delivers market leading quality in every model and price segment – quality that endures. We constantly work to improve our caravans and our goal is to always deliver a product that meets both yours and the next owner's requirements. Rest assured that your KABE will maintain a good resale value.

TECHNOLOGY

Your new KABE always includes cutting edge technology and it is one of the most well-equipped caravans in the market. At KABE, we think ahead and put lots of time and effort into preparing for future challenges with new solutions and technology development. In the past few years, we have received several prestigious awards for our innovations, e.g. in ventilation and heat recovery. We do everything possible for an extremely comfortable experience on the road.

DESIGN

Our modern and spacious interior in light colours and materials, is truly Scandinavian design at it's best. Recessed cabinet doors, rounded corners and ergonomic seat cushions are examples of details that create that special KABE experience. It's the perfect balance between design and function, inside as well as outside. The exterior with carefully developed features and elegant lines give each KABE it's distinctive character.

FUNCTIONALITY

With more than 60 years' of experience, KABE develops and builds caravans for active year-round use. You will find many smart solutions for a KABE lifestyle that is as convenient and relaxing as possible. Some examples are our practical pull-out ski box with lighting, central lock for lower kitchen cabinet doors and drawers and USB-outlets placed exactly where you need them!

CLIMATE AND ENVIRONMENT

From material selection and production technology to energy efficiency and emission levels – environmental issues are of the highest priority and we are committed all the way. We make great efforts to lead the way to an increasingly eco-friendly caravan industry. Naturally, we support the UN's global goals of sustainable development and better working conditions, increased diversity, gender equality, as well as maintaining a high level of business ethics.

SAFETY

When you buy a KABE you invest in safety. We want you to feel secure in your investment and fully enjoy life in your caravan. Our dealers include a 7-year warranty on water infiltration with all new models. Your safety on the road is extremely important, and our caravans are equipped with many active safety systems. Your KABE includes many carefully developed passive safety systems to protect you in an accident.

AUTHORIZED DEALERS

KABE has a wide network of authorised dealers and service stations, not only throughout Scandinavia, but in several European countries as well. They provide expert advice and help you with financing and insurance for your KABE. And once you are on the road, we have more than 100 authorised service stations in northern Europe. You will always find professional help, should you need it. Many have worked with us for decades. You are in safe hands!

OPTIONS

There is a KABE for everyone. All you have to do is figure out which size, floor plan, equipment and price level is right for you and your family. When you find your favourite model, you can select your optimal floor plan with KABE's Flexline System. There are many options and great flexibility. With our online product configuration system, building your KABE is easy. Choose "Build your KABE" on our home page www.kabe.se/en, or visit one of our dealers.

KABE FLEXLINE

Your personal floor plan

Everyone is different and our needs change over time. That's why we created KABE Flexline, a flexible system where you can tailor your caravan and floor plan to your personal requirements. Create your dream-KABE in peace and quiet, on your computer. You can easily view all available options and possibilities in our flexible configuration tool at kabe.se/en. A summary of your caravan will be presented, including price and contact information for the nearest dealer.

Choose floor plan in 4 easy steps:

1. CHOOSE MODEL AND LENGTH

We offer four caravan model series.

Model	Interior length
Estate	473-720 cm
Gemstone	473-630 cm
Royal / Hacienda	522-940 cm
Imperial	550-940 cm

2. CHOOSE WIDTH

You can choose between two widths.

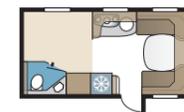

Model	Interior width
Standard	215 cm
King size	235 cm

3. CHOOSE BETWEEN 3 FLOOR PLAN SOLUTIONS

GLE: Bathroom and shower are placed along the left side in the middle of the caravan.

XL: Bathroom and shower are placed in the right, rear corner.

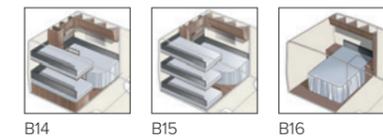

TDL: Bathroom with a separate walk-in shower spans the entire width of the caravan's rear.

4. CHOOSE BETWEEN 12 FLEXLINE OPTIONS

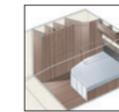

GLE

Select a floor plan...

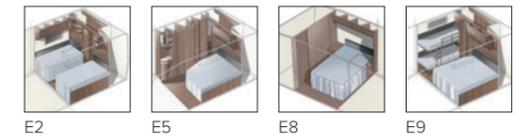

XL

- ▷ New sideways installed toilet in Estate 470 GLE
- ▷ New KABE logos with Kromex-technology
- ▷ New touch-panel electrical system
- ▷ Grey table legs instead of brown
- ▷ 3 fabric upholstery collections

KABE Estate 2023

Many families have found their new favourite caravan in our Estate-series which was introduced in model year 2022. KABE Estate offers a number of solutions for your family in different lengths. Choose the size and floor plan that is right for your unique needs and wish-list. Estate is also available in a smaller, lighter model with all KABEs built-in values.

KABE Estate has a pure and modern design throughout with large windows in the kitchen and living area. Angled overhead cabinets with clean lines in a matte white finish are accented with Nussbaum Ombre dark wood laminate. Kitchen counter with straight corners combine with exciting details such as tap, handles and light switches in matte black. As in all KABE caravans, the kitchen is well equipped with many storage solutions. A cover for your kitchen sink gives you a more cohesive counter space. Estate's kitchen counter Elero features a faux stone look, tables and console tops are finished in the shade Diamond White.

The lighting in Estate is carefully designed to create a warm and contemporary feeling, with indirect lighting along the ceiling and under overhead cabinets. The ceiling light is finished in matte white with contrasting wood edges.

Our beds feature upholstered headboards and mattresses with good support for your sleeping comfort. At the same time, it's an inviting and relaxing spot for reading or story-time. Cosy and stylish at the same time.

The well thought-out design, naturally continues into the bathroom. Bathroom counter in a modern concrete-look with darker accents and details such as tap and towel bars in matte black, just like in the kitchen. Shower curtain and track are both included.

KABE Estate includes three fabric collections to choose from: Beaumont in green, Roseville in black and Austin in grey.

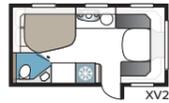

Estate's exterior is stylish with smooth panels and decal graphics with a 3D look. The exterior window frames are contrasted in black as well as the grille for the ventilation hatch. Estate is built on a Knott chassis with self adjusting brakes.

KABE Gemstone News!

- ▷ Two new models in 630-length: Onyx 630 GLE and Onyx 630 TDL
- ▷ New KABE logos with Kromex-technology and new Gemstone-emblem
- ▷ New touch-panel electrical system
- ▷ Elegant new bar cabinet in a practical design with bottle storage from the side and a slim new full height wardrobe in Nordic Oak
- ▷ New Neonflex – a thinner LED silicone profile on both sides of the refrigerator and in TDL-bathrooms
- ▷ In 2023, our sofas feature a new adjustable headrest that can be raised, lowered and moved side-to-side (available as an option with the Comfort Package)
- ▷ Fabric collections Nashville in brown and Glendale in black feature new curtains
- ▷ Grey table legs instead of brown
- ▷ New chrome reading lights, DuoSpot with three buttons by XL-bed
- ▷ New mirror design in our TDL-bathrooms and back wall in faux concrete
- ▷ In our GLE-bathrooms, one mirror cabinet door is replaced with wood for a more finished look

KABE Gemstone 2023

Our Gemstone-series features a number of exciting interior details, elegant wood laminate light fixtures, ceiling light in faux suede and modern bathroom counter in faux concrete with darker elements are a few examples. The entire interior is designed to coordinate with our Nordic Oak finish and shades of walls, floor and laminates.

Gemstone features four textile upholstery collections to choose from.

In the kitchen, you will find many exclusive details, such as the rounded sink with its stylish tap, separate cutlery drawer and a pull-out cutting board in carefully selected beech wood. Back splash that matches the kitchen counter and backlit plexi wall above. The 3-burner stove with its split lid adds smart extra space. To complete the stylish look, the side wall in Nordic Oak matches the overhead cabinets. New kitchen lighting and compact spotlights with USB-outlets were added in 2021. In model year 2022, kitchen fan light and lights under the overhead cabinets were practical updates.

Microwave located under the refrigerator is available as an option.

The living area is the obvious place to relax and socialise and our ergonomic seat cushions with Premium Foam provide superior comfort. All our seat cushions have anti-slip fabric on the underside to keep them in place.

For ultimate convenience, our models are equipped with more USB-outlets than ever before, even in bunk beds.

Other practical functions are a lock for the water tank cover and front window that can be opened (standard in all Gemstone models). Choose a TDL shower with modern faux concrete wall detail.

With AGS II Pro, you can turn on the floor heating separately. A shunt valve regulates the temperature of the water circulating under the floor. To reduce energy consumption, the system is controlled via time intervals. The fluid in the floor heating system is circulated at certain pre-set times – which keeps the energy consumption to a minimum and protects the battery.

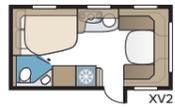

Exclusive 15" rims completes our exterior Gemstone-design.

Briljant 470 XL

The smallest of KABEs Gemstone models. A compact and light caravan, favoured by those who travel lots of miles.

KABE Royal

Luxury is the standard in our Royal-series. If you want to be at the forefront of technology and want nothing but the best, KABE Royal is the perfect choice. With the same standard equipment list as our Gemstone models, but much, much more. For example, KABE Smart D electrical system is included in every model. In combination with superior features, our Royal Hacienda caravans offer lots of space. Flexible, easy-to-move and comfortable living for those who do not want to compromise.

Royal includes four fabric upholstery collections and three in leather are available as an option, to coordinate with the elegant interior and with lots of combination possibilities. Choose upholstery, curtains and bedspread to create a caravan that is tailored to your personal style – and enjoy it for many years.

When you choose KABE Royal or Royal Hacienda the following is included in addition to what's already included in Estate (page 49) and Gemstone (page 59):

- ▶ Cargo hatch
- ▶ New decals on the side (Royal only)
- ▶ New decals in the front air intakes

- ▷ For Royal 630 TDL E8-solution the option mirror image bathroom and shower is available with mirror image bedroom

KABE Royal 2023

In KABE Royal, you will find a number of practical and aesthetic solutions. Light fixtures and ceiling light in faux suede and modern faux concrete bathroom counter are a couple of examples.

A few additional practical details are the front window that can be opened and a lock for the new water tank cover. All Royal models feature specially designed 15" aluminium rims and 17" rims are available as an option.

Digital Audio Broadcasting (DAB) is included with the multimedia player.

As soon as you step into the caravan, our Nordic Oak interior with its warm and inviting look sets the tone. The entire interior is designed to coordinate with the light, white-washed finish.

There is no room for compromise in a Royal kitchen. In addition to all the features from our well-equipped Gemstone kitchens, a Thetford gas stove with three burners, one electric burner and a built-in convection oven is standard in Royal.

The caravan must be connected to 230 V in order to operate the convection oven fan. If not, the oven works like a normal oven. In our unique front-kitchen models (FK), the kitchen is located at the front of the caravan. This option offers a generous kitchen area for your cooking pleasure and lots of light from the panorama window.

Dometic's innovative refrigerator with double hung doors for fridge and freezer, can be opened by gripping the aluminium moulding on either side of the door. A larger compressor refrigerator from Dometic is available as an option.

A wireless charger for your cellphone is included in our Royal models. It is placed in the front of the caravan.

For ultimate comfort, our headboard is covered in soft, padded faux suede with printed 3D graphics for a stylish and natural look. To complete your bed, superior quality spring mattresses with extra thick top pads are included.

NEW! Royal 600 CXL

Royal 600 CXL features a brand new L-shaped kitchen and a large and comfortable sofa. Bathroom with a separate shower (DXL) is available as an option. Between the kitchen and living area, an adjustable TV is added. When it's not in use, it fits neatly into a smart compartment in the sofa's backrest.

Royal 600 XL

Royal 600 XL is compact luxury. This model offers more space than the smaller 560 XL and the same quality equipment. Our DXL solution features a walk-in shower.

KABE Imperial

Our Imperial series is the definition of the absolute premium segment of caravans. You will recognize the exclusive and eye-catching exterior with smooth, high gloss panels and unique 3D graphics. Luxury in every aspect throughout the interior. Induction stove top, modern cabinet doors, rich leather upholstery, microwave, flush toilet with a ceramic bowl, AC, specially designed premium sound system and KABE Smart D electrical system are just a few examples of what is included. If you want the very best, KABE Imperial is the right choice for you. With our unique leather upholstery collections – you can add your own personal touch to your KABE!

KABE Smart Level – for an even simpler KABE-life!

Starting in 2023, we are expanding our Smart D panel with KABE Smart Level which includes three useful functions. Smart Level tracks your LPG-level (with use of one LPG- bottle, not for composite bottles), tire air pressure and the inclination of the caravan. The panel displays your LPG-level. No need to worry about unexpectedly running out of LPG during your trip. It can be difficult to find a refill station when you are travelling abroad or in the winter time. The tire air pressure sensor helps to ensure that your tires have the right amount of air pressure for a safe and fuel-efficient drive. Additionally, a level indicator is included with KABE Smart Level. When your caravan is parked, the display shows your caravan's inclination. An important factor for a pleasant and functional stay. With KABE Smart Level, we improve your quality KABE-life even a bit more!

KABE Smart Level is included in our Imperial-series.

In addition to what's included in Estate (page 49), Gemstone (page 59) and Royal (page 67) – our maximum equipped KABE Imperial also include:

- ▶ 17" Diamond Cut aluminium rims
- ▶ Smooth exterior panels with Innovation Design graphics
- ▶ Heki De Luxe skyview
- ▶ Total weight 2000 / 2650 kg
- ▶ Fresh Jet air-conditioner (FJ2200)
- ▶ Alde zone heating
- ▶ Kitchen counter with induction stove top, gas burner and built-in oven
- ▶ KABE AutoDrain (automatic emptying of the water system)
- ▶ Microwave
- ▶ Leather upholstery
- ▶ Slide-out sofa
- ▶ Swivel flush toilet with ceramic bowl
- ▶ KABE Premium Sound System with DAB
- ▶ KABE Smart Level

See our options on pages 96-99.

- ▷ New mirror design in our TDL-bathrooms and back wall in faux concrete
- ▷ In our GLE-bathrooms one mirror cabinet door is replaced with wood for a more finished look
- ▷ ALDE Flow for boiler ALDE 3030 Plus is available as an option

KABE Imperial 2023

You will find our most elaborate interior in Imperial. The front of the caravan features beige overhead cabinets with a modern anthracite grey detail. In the rear, the overhead cabinets are finished in Nordic Oak. In addition to all the features from our other models, Imperial is equipped with an induction stove top with two separate gas burners. The microwave is placed under the refrigerator to create extra space in the overhead cabinets and to maintain the aesthetics of the kitchen.

The living area is stylish with carefully selected, exclusive materials and timeless design. Our FK-models feature light fixtures and ceiling light covered in modern faux suede. Relax in our comfortable and luxurious sofa with leather upholstery. Open the front window if you like, a useful detail that's included in all Imperial models!

A large shower with an updated faux concrete wall design is included in our TDL-bathrooms and every model has the bathroom counter Urban Style. In 2023, our TDL-models feature a new mirror design and a matching faux concrete back wall.

With our KABE Smart D Remote app, you can manage the control panel in the caravan from anywhere. Available as an option in our Imperial-models.

To maximise your media options, a wireless router is standard. Imperial includes a new multimedia player with DAB and Premium Sound System. Relax and enjoy your favourites!

Heki II skyview is surrounded with a faux suede covered light fixture.

In our Imperial series, Fresh Jet air-conditioner is included to make you as comfortable as possible, even on hot summer days.

A lock for the water tank cover is included.

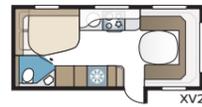

Imperial features exclusive 17" rims in Diamond Cut finish – completely unique for KABE.

Imperial 560 XL

KABE Imperial features our exclusive exterior KABE Innovation Design. Imperial 560 XL is a compact model, but with all the special features of the larger Imperial models.

OPTIONS Royal, Imperial

Give your KABE that little extra. We know what's needed for comfortable caravan living. Every KABE includes a generous list of standard equipment. To be honest, we offer many details that our competitors charge extra for. But we all have different needs. A wide range of options are available to complement your caravan and create the perfect solution for you and your family.

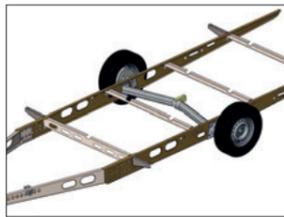

BODY

17" aluminium rims (standard in Imperial)

Tandem axles
Royal / Imperial 630 TDL
Royal 630 TDL FK
Royal 630 GLE
(standard in Imperial 630 TDL FK)

Total weight:
• 2000 kg (standard in Imperial)
• 2650 kg
• 2800 kg

Electric step

Panorama window in the front (only in KS, standard in FK)

Tinted windows

Entry door with a tinted window

Fresh Jet FJ 2200 air-conditioner (standard in Imperial)

CLIMATE / HEATING

Solar panel. Produce your own electricity! Environmentally friendly, easy and practical. The superior quality solar panel package from GoCamp provides 140 W. The panel's frame is constructed in heavy aluminium, with aerodynamic spoilers that reduce the wind noise when driving.

If you are free camping, the options large battery and solar panel are recommended.

Alde Flow in boiler 3030 Plus. With Alde Flow you can take a warm shower for as long as you like! Alde Flow is a separate warm water tank that can be connected to the glycol heating system. The tank preheats the fresh water before it reaches the boiler's ordinary hot water heater and provides constant flow of warm water.

SmartVent. A new, smart ventilation system is available as an option for Royal and Imperial. The ventilation is automatically controlled according to temperature and the amount of carbon dioxide and hydrocarbon in the air. The system consumes 7 percent less energy in cold weather compared to traditional ventilation and provides a higher quality of incoming air. A special filter reduces the amount of particles in the air and adjusts to a higher air exchange when the air becomes polluted (not for 630 TDL FK, 540 GLE).

Water purification system – Alde AquaClear UV-C (Alde Compact 3030 boiler). Efficient water purification that protects the user in a gentle and eco-friendly way. Unwanted viruses and bacteria, pesticides and chemicals are removed. The water is disinfected with UV-C light generated from LED's. In addition, the water passes through a carbon filter that removes any odour, bad taste and colour.

KITCHEN

Compressor refrigerator. Refrigerator with a 12 V compressor. Provides a spacious refrigerator with a generous freezer compartment.

Micro under the refrigerator (standard in Imperial, FK-modeller in lower kitchen cabinets)

LIVING ROOM

Removable table support (standard in FK-models, not for 540 GLE)

Hollywood leather seating
• Front seating
• Front seating + middle dinette (standard in Imperial)

Charleston leather seating
• Front seating
• Front seating + middle dinette (standard in Imperial)

Hampton leather seating
• Front seating
• Front seating + middle dinette (standard in Imperial)

BEDROOM

Electric adjustable bed (standard in Imperial, not in E9 bed)

Loft bed cabinet with doors (only certain bedroom solutions and middle dinette area)

Fitted carpet

Drawer under bunk bed (B14, E9)

Grand Lit B2 (extra large bed) – convert two single beds to one double bed (only in GLE-models)

BATHROOM

Wood shower floor insert – Royal, Imperial (TDL, DXL)

Thetford toilet with a ceramic bowl (standard in Imperial)

Cinderella combustion toilet. Cinderella is a modern and environmentally friendly toilet solution with a large capacity and high operational reliability. Paper, urine and faeces are burned at a high temperature resulting in a minimal amount of ash, about one cup per person per month. Clean, hygienic and odourless (TDL-models in Royal and Imperial and 780 D GLE).

Mirror image TDL bathroom for the following Flexline solutions: E2, E8 (except for 600 TD FK or with Cinderella toilet)

Mirror image floor plan for bedroom and bathroom

ELECTRIC / TECHNOLOGY

Shower instead of console (DXL)

Fan in the shower stall (TDL, 780 D GLE)

Shower pump (TDL-models)

Electricity meter in the electrical box

130 Ah AGM battery incl. case

Mover:
• Tandem axle
• Single axle

Converter DC121210 – Booster (reinforced charge while driving)

External antenna router

ELECTRIC / TECHNOLOGY

KABE Smart D Remote. KABE Smart D Remote* enables you to manage the control panel remotely, from anywhere. KABE Smart D Remote is built together with a 4G router with an internal antenna and a mobile modem (external antenna is available as an option). In addition to managing heating, lighting and keep track of the caravan's functions and alarms via your cell phone, you also have access to a wireless internet connection on the road.

* With your purchase of KABE Smart D Remote, a 36 month subscription is included. After 36 months, you will pay a yearly fee for the use of the app. A separate mobile data subscription is also required.

ADDITIONAL EQUIPMENT

Duocontrol. Duocontrol has a built-in automatic gas switch, reduction valve and collision sensor which is triggered on impact with a G-force of 3.5 G. The supply of gas is shut off immediately to avoid a gas leak. Duo Control is approved in all of Europe and allows for the gas to be on while driving.

Direct drain – waste water bypass tank (standard in Imperial)

City water

70 litre water tank (not for 600 TDL, 630 TDL / TDL FK)

NEW! KABE Smart Level – makes your KABE-life even simpler!

Starting in 2023, we are expanding our Smart D panel with KABE Smart Level which includes three useful functions. Smart Level tracks your LPG level (with use of one LPG bottle, not for composite bottles), tire air pressure and the inclination of the caravan. The panel displays your LPG level. No need to worry about unexpectedly running out of LPG during your trip. It can be difficult to find a refill when you are traveling abroad or in the winter time. The tire air pressure sensor helps to ensure that your tires have the right amount of air pressure for an extra safe and fuel-efficient drive. Additionally, a level indicator is included with KABE Smart Level. When your caravan is parked, the display shows your caravan's inclination. An important factor for a pleasant and functional stay.

With KABE Smart Level, we improve your quality KABE-life even a bit more! (standard in Imperial)

ECO PACKAGE

130 Ah AGM battery

Battery sensor

AirVent

Solar panel

This package is perfect for those who want the freedom to camp anywhere for a long period of time, without worrying about the supply of electricity. AirVent replaces AC and provides a more energy efficient cooling of the caravan. The 130 Ah AGM battery is more durable than an ordinary battery and with solar panels on the roof you produce your own electricity.
