KABE Novum Compact – big news in compact form!

KABE Novum is a popular affordable semi-integrated model with a total weight of 3.5 tons.

For model year 2025, KABE introduces an entirely new Novum model – Novum Compact. The vehicle adds a new segment in KABE's already extensive motorhome lineup.

KABE Novum Compact is a slightly shorter, narrower and more manoeuvrable motorhome that is easy to navigate on the road and at the campsite. It measures 716 cm in length and 224 cm in width, making it 29 cm shorter and 15 cm narrower than our regular Novum-model.

Novum Compact is available in two floor plans: LXL and LGB. LXL features a double bed, while LGB is equipped with two single beds. Both layouts include face-to-face sofas that create an airy and spacious feel. The model also includes a straight kitchen design with a counter, gas stove and built-in fan. The bathroom is equipped with a toilet, sink, shower and practical storage space. The only notable interior differences between Novum Compact and regular Novum are a slim refrigerator and the absence of the option drop-down loft bed. The exterior design of Novum Compact is identical to Novum.

The compact dimensions in combination with smart material choices, result in an impressive payload capacity of approximately 500 kg, which is remarkable for a premium model equipped with Alde warm water heating.

Two equipment packages are available for Novum Compact. The Heavy package increases the total weight to 4.5 tons, providing even better payload capacity. The Royal package includes a long list of extra features, such as a 170 hp engine, KABE AirVent, the AGS II Pro under floor heating system, leather steering wheel, wireless charger and extra speakers.

KABE Novum Compact embodies KABE-quality throughout — no compromises!

SCANDINAVIAN DESIGN

With style, functionality and innovation

Scandinavian design and Swedish quality have always been our guiding principles for the development of every KABE model. Here, style and functionality go hand in hand. The result is luxurious and comfortable motorhomes with a timeless feel and many innovative solutions that provide you with a mobile leisure home beyond the ordinary.

KABE – an investment in your quality of life

A motorhome from KABE is an investment in your quality of life. We leave nothing to chance. For more than 65 years, we have been developing and manufacturing leisure vehicles that allow you to travel safely, securely and environmentally friendly on the roads and enjoy the utmost comfort at your destination.

Every detail is carefully designed to provide you with the very best. We go all the way – and then some – in our effort to equip our motorhomes with smart solutions and features that make every day in your motorhome as smooth as possible.

KABE quality is built into our unique construction and continues with our in-house manufactured carpentry, practical interior details and technical solutions that are always at the absolute forefront of the industry.

You may not notice all these things right away when you compare a KABE to other brands, but they are there to make life in your motorhome a little easier each day.

All the "extras", are simply included with your KABE.

A few examples:

- Insulated energy efficient windows.
- Sound-insulating ceiling.
- Extra wide front door.
- KABE custom designed upholstery for front seats.
- KABE Smart D control panel.
- Smoke detector in the bedroom area.
- AGS II Pro automatic floor heating system (option for Novum, included with the Royal package).
- Indirect lighting, mood lighting and night lights.
- Passenger sofa with slide-out function in several models (not for Van or Novum, included with the Heavy package).
- Dryer cabinet with a custom design drip pan for drying of shoes in several models.
- Built-in kitchen fan with lighting and two speeds.
- The best refrigerator ventilation on the market.

To find out more, see pages 30-37.

Luxury from the inside and out

Design, safety and quality – that's what KABE stands for. The motorhome's classic features are immediately recognizable on the road. And when you get to know your KABE, with all its thoughtful comforts, you will appreciate the true value of the design.

All KABE motorhome's feature our unique Innovation Design exterior. The graphics are printed directly on the body with high UV resistance which ensures that the colour remains vibrant for many years without fading. KABE's unique ID-exterior inspires the creation of design elements that follow the shape of the motorhome and complement the placement of windows and doors. Large windows provide a bright and open indoor environment.

KABE Van, Crown and Imperial are equipped with LED headlights for ultimate safety (available with Novum and Royal Design packages).

Every KABE motorhome is equipped with a wide front door. In our Novum and Royal models, the door Hartal Evolution is installed (except for x750 T, which has a Dometic door). Crown and Imperial feature the door HartaLux with extra strong hinges, frame and handle as well as a three-point lock. KABE Van has a sliding door.

As of 2025, KABE Van, Novum, Royal, Crown and Imperial models will come equipped with Mercedes-Benz's innovative MP Camera, an advanced safety feature that raises the standard for comfort and safety on the road. The camera detects everything from speed limits to lane departures, providing the driver with real-time information for a safer driving experience.

In our 2025-models, we update the garage in KABE Novum, Royal, Crown and Imperial with a redesigned rear section that provides a more spacious garage. The new design also features larger external garage doors, which have increased both in width and height, in Crown- and Imperial-models.

A new option is two-channel air suspension from AL-KO, available for Novum with Royal package, Royal, Crown and Imperial.

KABE Van features a new sporty exterior design for 2025, and the off-road package is upgraded with it's own exterior graphics (the image on the left).

At KABE, we put a lot of effort into continuous development of our motorhomes. Our goal is always to be at the forefront or even one step ahead. To provide you, the KABE-owner, with the very best – a reliable motorhome that maintains the highest standard and an exclusive feel inside and out.

Modern, stylish and elegant

In a KABE motorhome, you always experience comfort and quality in every detail, every day. Materials are selected with great care to meet your expectations in terms of both aesthetics and durability. The look is contemporary yet classic. You can rest assured that your KABE will always feel modern, stylish and elegant.

The colour of the interior creates a beautiful and inviting atmosphere. Atlas Zeder wood laminate, with a warm brown tone, is complemented with a light floor and overhead cabinets finished with doors in the shade Cashmere. The cabinet doors in KABE Van have the light colour Grau.

Every motorhome has a sound-insulating fitted ceiling that prevents both inside and outside noise.

Lighting plays a significant role in setting the mood at home, and it's just as important for the ambiance in your motorhome. When you unlock the front door, the entry light, the handle on the inside and the lights along the steps turn on automatically adding both comfort and security. Other special features include indirect lighting above the cabinets, wardrobe lighting, cargo area lighting and a dimmer for the front ceiling light.

In our 2025-model's, we've updated several details! All motorhomes feature new black handles for wardrobe doors, cabinets and kitchen drawers. Chrome interior details, such as hooks, handles and reading lights are finished in black.

In the kitchen, we are upgrading to a new spacious Thetford refrigerator, a new stove and a modern square sink with a black surface-mounted faucet. The interior is further enhanced with a black stripe for the overhead cabinet doors.

Improved forward-facing 5th passenger seat (available as an option), allows you to easily remove the entire unit to save both weight and space. Isofix and a three-point seatbelt are included.

For KABE Van, we introduce a new seat with an adjustable headrest. Additionally, a new practical TV-mount with electric height adjustment is placed between the front bathroom wall and the back of the seating area. KABE Van also features a larger freshwater tank with a capacity of 91 litres.

Swivel front seats with maximum space between them result in flexible use and transition from driving mode to relaxing around the dinner table in just a few seconds!

Our Mercedes front seats feature KABE custom upholstery design. KABE Crown- and Imperial-models are equipped with our exclusive driver and passenger front seats with integrated seat belts.

For the windshield in Crown and Imperial, we include an electric privacy shade – making it easier than ever to create a cosy and private atmosphere inside the motorhome when evening falls.

Design and upholstery

It is the details and the comfy design that creates the overall feeling of home in a KABE. In addition to providing comfortable seats and beds, we offer textiles and upholstery that meet the design, care and durability requirements of modern motorhome families.

This year's collection includes four options in fabric, two in leather and one artificial leather. In our Novum-series, you can choose Tulsa or Phoenix.

Leather upholstery is included with our Imperial-models and available as an option for Novum, Royal and Crown. The same applies to environmentally conscious Las Vegas artificial leather collection with a genuine leather feel! The upholstery has a surface made of PU and the back side is made from recycled leather. The material is soft, durable and super easy to keep clean!

Our collections Phoenix, New Haven, Durham and Las Vegas have new modern curtains.

KABE Van includes two fabric collections that complete the design and look of the vehicle.

COMFORT

Year-round, in all road conditions and directions

The comfortable KABE-life is characterized by a smooth journey and the most relaxing time possible on site with your motorhome. We include every detail in the design and development of our models. Whether the goal is the journey itself, or the destination, we provide safety and a sense of home year-round, in all road conditions and directions.

Culinary delight

The kitchen, just like at home, is a vital part of motorhome living and somewhat the heart of family life.

In our 2025-models, all KABE kitchens are tastefully updated. Highlights include a square sink, a new stove, spacious new Thetford refrigerator and stylish black details.

All KABE-kitchens are equipped with plenty of storage and thoughtful design. We know that fine cooking requires its own space. Smart solutions provide extra work surfaces when you need them most. Recessed doors and drawers are standard, and the drawers are equipped with soft-close and central locks. The entire motorhome is upgraded with modern black handles and the kitchen drawers feature top-mount handles that complete the new look.

You'll also find many exclusive details, such as the new square sink with a surface-mounted black faucet, a pull-out cutting board in carefully selected beech wood and a functional cutlery drawer. Naturally, you can sort your waste with separate bins, just like home.

In a KABE, you get a kitchen that invites you to culinary pleasure, regardless of how many gather around the table.

The Light Concrete countertop with a new 2- or 3-burner gas stove from Dometic is standard in KABE Novum, Royal and Crown. KABE Van has a new 2-burner gas stove and Perla countertop. A new built-in oven with a glass front is included in the Novum Heavy package, Royal, Crown and Imperial! The new, spacious Thetford refrigerator with a freezer compartment and a sleek black front provide all KABE-series with a sophisticated and uniform look. In Crown and Imperial, the oven is positioned above the refrigerator (except for i790).

Backsplash in Latte-laminate with Plexiglas on the wall behind the countertop (not for Van), provides an expansive feel behind the stove and sink and serves as a practical splash guard that's easy to wipe down.

The Imperial-kitchen is not your ordinary motorhome kitchen! Here, we elevate the concept of premium to create a kitchen for true connoisseurs. The kitchen cabinets are finished with elegant high-gloss doors in a soft crème colour, Sabbia High Gloss. Corian Savannah countertop is included. A Flexi-faucet is included and the new refrigerator is upgraded with a high-gloss black metallic front. i910-models feature a practical drop-down shelf, perfect for a coffee maker.

All Imperial models are equipped with a new Thetford cooktop featuring two gas burners and an induction surface.

Room for everyone

The living area is the place to relax and socialise. In order to enjoy each other's company, comfortable space is needed for everyone. You might also want to use the motorhome as a place to work.

New design-details in black enhance the interior with a stylish contrast to other elements.

Our L-shaped sofas are generously sized and include comfortable, ergonomically designed cushions with high-quality Premium Foam padding (not for Van). You'll always be comfortably seated! All our cushions feature anti-slip backing, keeping them firmly in place (not for Van). Choose the upholstery collection that suits your taste, from our unique and carefully tested selections. See page 14. In KABE Imperial, luxurious leather upholstery or practical artificial leather is included.

The seating area in your motorhome requires different considerations than your sofa at home. To provide a comfortable and secure seat while driving, we've developed a passenger sofa with seat belts and a slide-out function (not for Van or Novum, included with the Heavy package). You can easily adjust the angle of both the seat and backrest.

An adjustable armrest is standard in Royal, Crown and Imperial and ensures travel comfort even for the passengers (included with Novum Heavy package). The passenger seats in KABE Novum, Royal, Crown and Imperial have crash-safe seat belts with integrated three-point buckles, Isofix anchors and adjustable headrests. Passengers of all ages travel safely and comfortably in your KABE.

A vital safety measure is KABE's sofa solution with a built-in safety frame, which prevents the passenger from sliding under the seatbelt in the event of a collision.

The option forward-facing fifth passenger seat has been improved in our 2025-models. You can easily remove the entire unit when it's not needed to save weight and space.

The high-gloss table is complemented by details such as rounded sofa corners and indirect lighting along the underside of the cabinets to create an inviting living space. Smart storage space in overhead cabinets with shelves makes it easy to keep things organized.

To facilitate your connected life, a router for wireless network is included in all KABE models. An external antenna for the router is available as an option. A wireless charger for your mobile phone is included (not for Royal x780 LB/LGB). In addition, Imperial is equipped with KABE's exclusive Premium Sound System with DAB.

Wake up rested and refreshed

Wake up rested and refreshed and ready for new journeys and adventures. We always include really comfortable beds and mattresses, a convenience that is often an additional charge from other brands. You deserve the best!

Choose the KABE-bedroom layout that works best for your family's needs. Regardless of which layout you choose, our beds are always comfortable and equipped with spring mattresses, thick mattress pads and a base with flexible slats. In our QB-models, the queen-bed is raised with a smart built-in storage solution at the base.

If you choose a semi-integrated model with Crossover design, a drop-down loft bed above the dining area is included (option for Novum LXL and LGB with Royal package). In our fully integrated models, you will find a practical drop-down double loft bed in the front, which provides a large extra sleeping space for temporary overnight guests – perhaps grandchildren or a teenager's friend who comes to visit.

The bed is not just a place to sleep. It's a place to curl up with a book or magazine for a bit of relaxing time. To make it as comfortable as possible, we designed a headboard in soft padded faux suede with a printed 3D-look that adds an inviting and cosy feel to the bedroom environment. Stylish bedspreads are always included with your KABE.

The aluminium bed frame is solid and sturdy with room for an electrical adjustable headboard (standard in all LQB-models and in Imperial LT, available as an option for Novum, Royal, and Crown). You will also find details such as soft lighting by the headboard, blackout curtains and sound-insulating walls and ceilings, to ensure restful nights and refreshed mornings.

Night light or not? When you want to turn the night light on or off, the button is exactly where it should be – by the bed. Van, Novum, Royal and Crown have new modern reading lights in black and in Imperial the lights are finished in black chrome. Some models feature DuoSpot reading light with three switches. A smart switch with touch-panel is standard in all models.

Additionally, our bedrooms are equipped with spacious wardrobes and overhead cabinets to accommodate everything your family needs for the journey.

The new black design accents naturally continue into the bedroom as well, providing a cohesive and modern impression throughout the motorhome!

Bathroom comfort just like home

A private shower and toilet is a priority for many to make everyday life in your motorhome as relaxed as possible. Do you prefer a floor plan with a large and spacious bathroom in the back of the motorhome? Or would you rather have a separate shower and toilet? In the second option, you can section off the entire bedroom and bathroom space from the living area by opening the doors on both sides all the way. A completely private area, where you can get ready in the morning. We offer many flexible solutions for you to choose the floor plan and bathroom comfort that best suits you and your family. Everything to make you feel at home.

The thoughtful details and sleek design that characterize your entire KABE-motorhome are naturally present in the bathroom. In Novum, Royal, Crown and Imperial, the colour scheme from the rest of the motorhome's interior is reflected with cabinets in Atlas Zeder.

An exciting new component are the upgraded interior details such as handles, hooks, faucet and shower in black! They add an extra design-touch to your KABE-bathroom.

Bathroom countertop in the durable laminate Light Concrete adds style to the décor in all KABE models. This design element is also featured on wall surfaces and shower details in our T-models and Royal x880 LQB. Neonflex slim silicone profile with LED-lighting is an added modern feature in our T-bathrooms and in Royal x880 LQB.

All models include a swivel flush toilet with external emptying. The Imperial-series is upgraded with a ceramic bowl. Cinderella incinerator toilet is available as an option for specific layouts. Heated towel racks are available as an option for Novum with Royal package, Royal, Crown and Imperial.

A lock for the bathroom door is always included.

The home page shows all the controls for lighting and digital dimmer sliders. It also displays the temperature, both outside and inside, and the current time.

KABE smart technology

With KABE Smart D control panel – **winner of the European Innovation Award** – you can manage many of the motorhome's functions. The panel is designed with user-friendliness in mind and features an easy-to-read touch-screen display. You can monitor freshwater level, wastewater level and battery voltage. You can control lighting, AC, boiler and temperature as well as the drop-down loft bed and other options. The system also has several alarm functions that remind you when it's time for service or if a fuse has blown. Everything is conveniently displayed on the Smart D screen. Included in all KABE motorhomes.

Which language do you want to navigate your KABE Smart D-panel with? You can easily select your language of choice, just like on your smart-phone.

KABE Smart D Remote allows you to control the motorhome's control panel remotely via an app from wherever you are. For example, you can start the AC on the way home from the beach or increase the heating and set up welcoming lights before the final run on the ski slopes! KABE Smart D Remote is integrated with a 4G router with an internal antenna and a mobile modem (external antenna is available as an option).

In addition to controlling heating, lighting and monitoring the motorhome's functions and alarms via your cellphone, you also have access to a wireless internet connection on your trip. KABE Smart D Remote* is available as an option for all models except for Novum (available as an option for Novum with Royal package).

KABE Smart Level – **winner of the European Innovation Award (EIA) in the Vehicle Equipment category 2023** – monitors gas level**, tyre pressure and the motorhome's tilt when parked. The panel shows the gas level, so you don't have to worry about running out unexpectedly during your trip. The tyre pressure sensor helps you maintain the correct air pressure in the tyres, ensuring a safer and more fuel-efficient drive. KABE Smart Level also includes a level indicator that shows the tilt of the motorhome when it's parked, which affects both comfort and functionality in the living space.

KABE Smart Level is standard in Imperial and available as an option for Novum with Royal package, Royal and Crown.

* With your purchase of KABE Smart D Remote, a 36 month subscription is included. After 36 months, you will pay a yearly fee for the use of the app. A separate mobile data subscription is needed as well.

** With the use of one gas bottle, not for composite bottles.

QUALITY

More than 65 years of know-how and experience

KABE motorhomes are designed to suit both the Scandinavian climate and the roads further south. All models are manufactured in our own factory in Tenhult, Småland, which today is one of Europe's most modern. A passionate team of developers, designers and assemblers bring over 65 years of expertise and experience to the table. Our goal is to always offer the highest quality in every price segment of the market.

How we build at KABE

You can recognize a KABE by its distinctive exterior design and colour scheme. Behind the elegant exterior you will find a series of unique constructions and systems designed to work together efficiently.

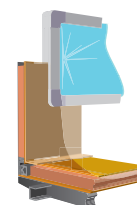

It's the whole that defines KABE's high quality and standards. This includes a custom chassis for safe driving, a robust and moisture-proof body and a meticulously engineered system for heating, insulation and ventilation.

Much of the quality is in the details, and in KABE you will find numerous smart and durable solutions that contribute to the final product's excellence. Many of our functions and solutions are unique to our brand.

We simply build motorhomes that we ourselves would want to live in: comfortable, functional and equipped with the best year-round features on the market. To provide you with a relaxing holiday experience on wheels and always feel happy and safe in your KABE, wherever you go.

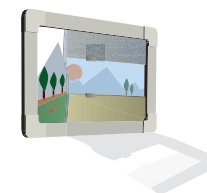

KABE-quality from start to finish

iWall construction

iWall construction delivers maximum stability and an absolutely waterproof body!

- The body is built with the Sandwich principle: outer sheet metal, 36 mm Ecoprim insulation, inner sheet metal and a wall covering that absorbs any condensation.
- Ecoprim is a waterproof material that is manufactured with closed cells, which means that it cannot absorb any moisture.
- Aluminium sheets on both sides of the Ecoprim insulation significantly reduce the impact from temperature differences.

Windows with smart details

KABE's windows include all the features required for comfortable motorhome living.

- The smooth and medium tinted exterior of the window panes protect against heat.
- Integrated screens and blackout curtains are included.
- All windows (except in the kitchen) are continuously open-able.
- KABE's insulation in walls and windows provide warmth in winter and keep the motorhome cool in summer.

...additional equipment

All the extras make for a smooth and relaxing holiday.

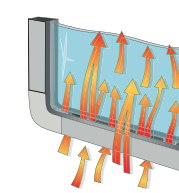

- The electric step is automatically retracted when you start the motorhome.
- Remote control central locks for the driver's cab.
- Living area main door is connected to the central lock.
- Vehicle section AC.
- Alarm indicates if the 230 cable is connected when you start the engine.
- USB outlets.

Plastic beams

KABE's unique construction provides a safe motorhome with a long life span and documented good resale value.

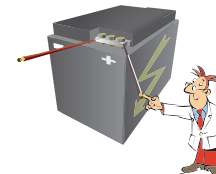

- KABE uses plastic beams with integrated air ducts in all moisture-exposed parts of the body.
- Patent is pending for the KABE-designed plastic beams.
- Our plastic beams have superior insulation properties.
- The plastic beams also provide better connections between the different parts of the body.

Unique windows and doors

Double-glazed energy efficient windows ensure that your motorhome does not release more heated air than necessary during the cold season and vice versa when it is hot.

- Energy efficient windows with a polyurethane frame that creates a seal against the double pane glass provides maximum insulation.
- The window frame is insulated with built-in ventilation, which prevents condensation on the inside of the window when the curtain is drawn at night.
- Living area main door with a window, soft-close and screen door is standard.

Powerful generator and battery

Our extra powerful electrical system increases the battery life, even during low outdoor temperature.

- Every KABE motorhome is equipped with extra powerful generator and batteries.

Sealed roof joints

The transition from roof to walls is sealed in several stages.

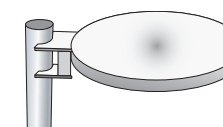

- First, the joint between roof and wall is carefully sealed with elastic butyl compound.
- In the next step, we overlap the roof sheet with the wall sheet to completely avoid leaks.
- KABE's unique iWall construction provides an unlimited number of attachment points – important for adding optional equipment.

Prepared for support legs and a tow bar

We leave nothing to chance! Practical details are always included in your KABE.

- All KABE motorhomes are constructed with AL-KO framework extension and can easily be equipped with support legs and a tow bar.

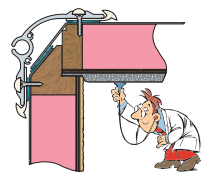

Ready for TV reception

Your KABE is equipped for the best reception.

- Electronic TV antenna for both analogue and digital reception.
- Exterior connection for the TV, cable TV and 12 / 230 V.
- Equipped with TV antenna outlet in three places: in the seating area, bedroom area and the electrical box.
- An alarm indicates if the antenna is raised when you start the motorhome.
- Media cabinet with a fold-out TV wall mount is included in many of our models.

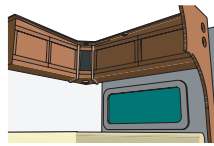

The details make all the difference

Soft, light reflecting and sound insulating ceiling

The soft inner ceiling creates a cosy indoor environment and reduces the sound from rain and wind.

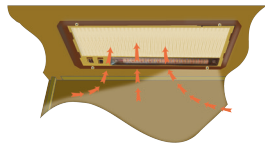

- KABE is the only manufacturer to feature an exclusive 'soft ceiling' design, with better acoustics inside the motorhome.
- Our 'soft ceiling' absorbs sound and improves the ceiling's insulation properties.

KABE-quality in every interior and all carpentry

Furniture construction and interiors are always produced in KABE's own facilities.

- Scandinavian design throughout the interior.
- Overhead cabinet doors open with a light touch.
- Kitchen drawers are equipped with soft-close and central locks.
- Robust and durable interior that is optimised for lighter weight.

A well-equipped kitchen

In the KABE kitchen you will find equipment and details just like your kitchen at home.

- Built-in, two-speed kitchen fan with lighting.
- Removable grease filter for easy cleaning.
- Stove with electric ignition.
- The market's best refrigerator ventilation system.
- AES fully automatic refrigerator.
- Thetford refrigerator in all motorhomes.

Best seating comfort in the market, premium upholstery and textiles

With friends around the table or in front of the TV, you are always comfortably seated.

- Ergonomically designed sofas with durable, recycled Premium Foam cushions.
- Highest quality, wear-resistant upholstery.
- The passenger seat sofa is adjustable with slide-out function (not for Van or Novum, included in the Heavy package).
- Seven upholstery collections with coordinating curtains to choose from.

Very comfortable beds

A good night's sleep and extra comfortable for reading in bed.

- Fitted bed slats support your body when lying down.
- Spring mattresses and thick mattress pads (not in bunk beds) guarantee a good night's sleep.
- Our adjustable headboards provide extra comfortable reading in bed.
- Adjustable beds with soft-close for efficient cleaning.
- Electric headboard (standard in all LQB-models and in Imperial LT – available as an option for Novum with Royal package, Royal and Crown).
- Headboard with cosy lighting.

A bathroom with a shower

A private shower gives you an increased feeling of freedom.

- Our different models include shower pans, water-proof wall covering, overhead showers and foldout or fixed shower enclosures.
- Several floor plans include a walk-in shower.
- Lock for the bathroom door.

Dryer cabinet

Dryer option after an active day outdoors is a practical feature in many of our models.

- Dryer cabinet with a custom designed drip pan for drying of shoes.
- The dryer cabinet has a special convector and an adjustable roof valve for maximum heat circulation.

Lots of lighting throughout

Night light provides a guiding light in the motorhome at night.

- Light fixtures with built-in spotlights.
- Indirect lighting above overhead cabinets.
- Night light with the switch located by the bed.
- Interior light switch for exterior lights, the lighting in the gas compartment and ski storage.
- Lighting in wardrobes and under-bed storage.
- Modern switch with touch-function.

KABE Smart D

With KABE Smart D control unit, you can manage many of the motorhome's functions.

- Easy-to-operate electrical panel with touch-screen display.
- The electrical system detects the battery strength and automatically charges when necessary.
- The system keeps track of water level, temperature and battery voltage.
- KABE Smart D Remote is available as an option for all motorhome models.

KABE Smart Level

Complete control with Smart Level! The KABE Smart D panel includes KABE Smart Level, with three practical functions.

- The panel shows the current gas level (for the use of one gas bottle, not for composite bottles). No need to worry about the gas running out unexpectedly.
- The tyre pressure sensor helps you maintain the right air pressure in the tyres.
- A level indicator shows the tilt of the motorhome when it's parked.

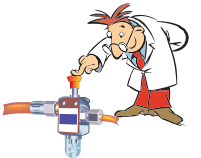

Your comfortable KABE life made even a bit simpler with full control of the situation.

...and even more equipment

In our Imperial-series even more equipment is included (some are available as an option for other models).

- Living area AC.
- Central lock exterior access doors.
- Inverter.
- Corian Savannah kitchen counter.
- Premium Sound System with DAB.
- Leather upholstery or artificial leather.
- Solar panel.
- AL-KO HY4 hydraulic support legs.

Safe and sound

With safety in mind! The following safety equipment is included in all KABE motorhomes:

- Air bag.
- ABS brakes and three-point seat belts in drivers cab and passenger seats.
- Leak indicator for manual control of the gas system.
- Hose break valve allows the gas to be on while driving.
- Smoke detector located in the bedroom area.
- Ground fault circuit breaker.
- Collision sensor for the gas system.
- Water tank frame, battery frame, reinforced sofa and metal frame in the refrigerator.

Wireless charger. A wireless mobile phone charger is standard in all models (except for Royal x780 LB/LGB).

Wireless router. To maximize your media options, a router for wireless internet connection is standard in all models. An external antenna for the router is available as an option.

Unique comfort every day of the year

The European climate imposes different demands depending on where you are. We know. It can vary from hot and dry summer, humid and windy autumn to really cold winter with lots of snow. But you can rest assured that our motorhomes can cope with road conditions and wind or temperature fluctuations without any problems. The technical solutions in our construction and our unique heating and ventilation solution (Smart Climate System) make your KABE the best year-round motorhome on the market.

Our goal is to make your winter holiday as comfortable as your summer vacation. Insulation, windows, walls, heating and ventilation are developed to withstand the demands of nature, regardless of the season. In addition, all our motorhomes include a wide range of smart heating systems. For example, a heat exchanger and the possibility to heat the driver's cab even when the engine is switched off up to 24 hours before departure (not for Novum, included with the Heavy package).

Our 780 and 880 models feature a double roof above the drop-down loft bed to optimise comfort in cold weather and to prevent moisture.

In our Imperial-models, Alde zone heating is standard. You can control the heat in two separate zones, the rear and the front of the motorhome. The bathroom area is always comfortably heated on the return loop.

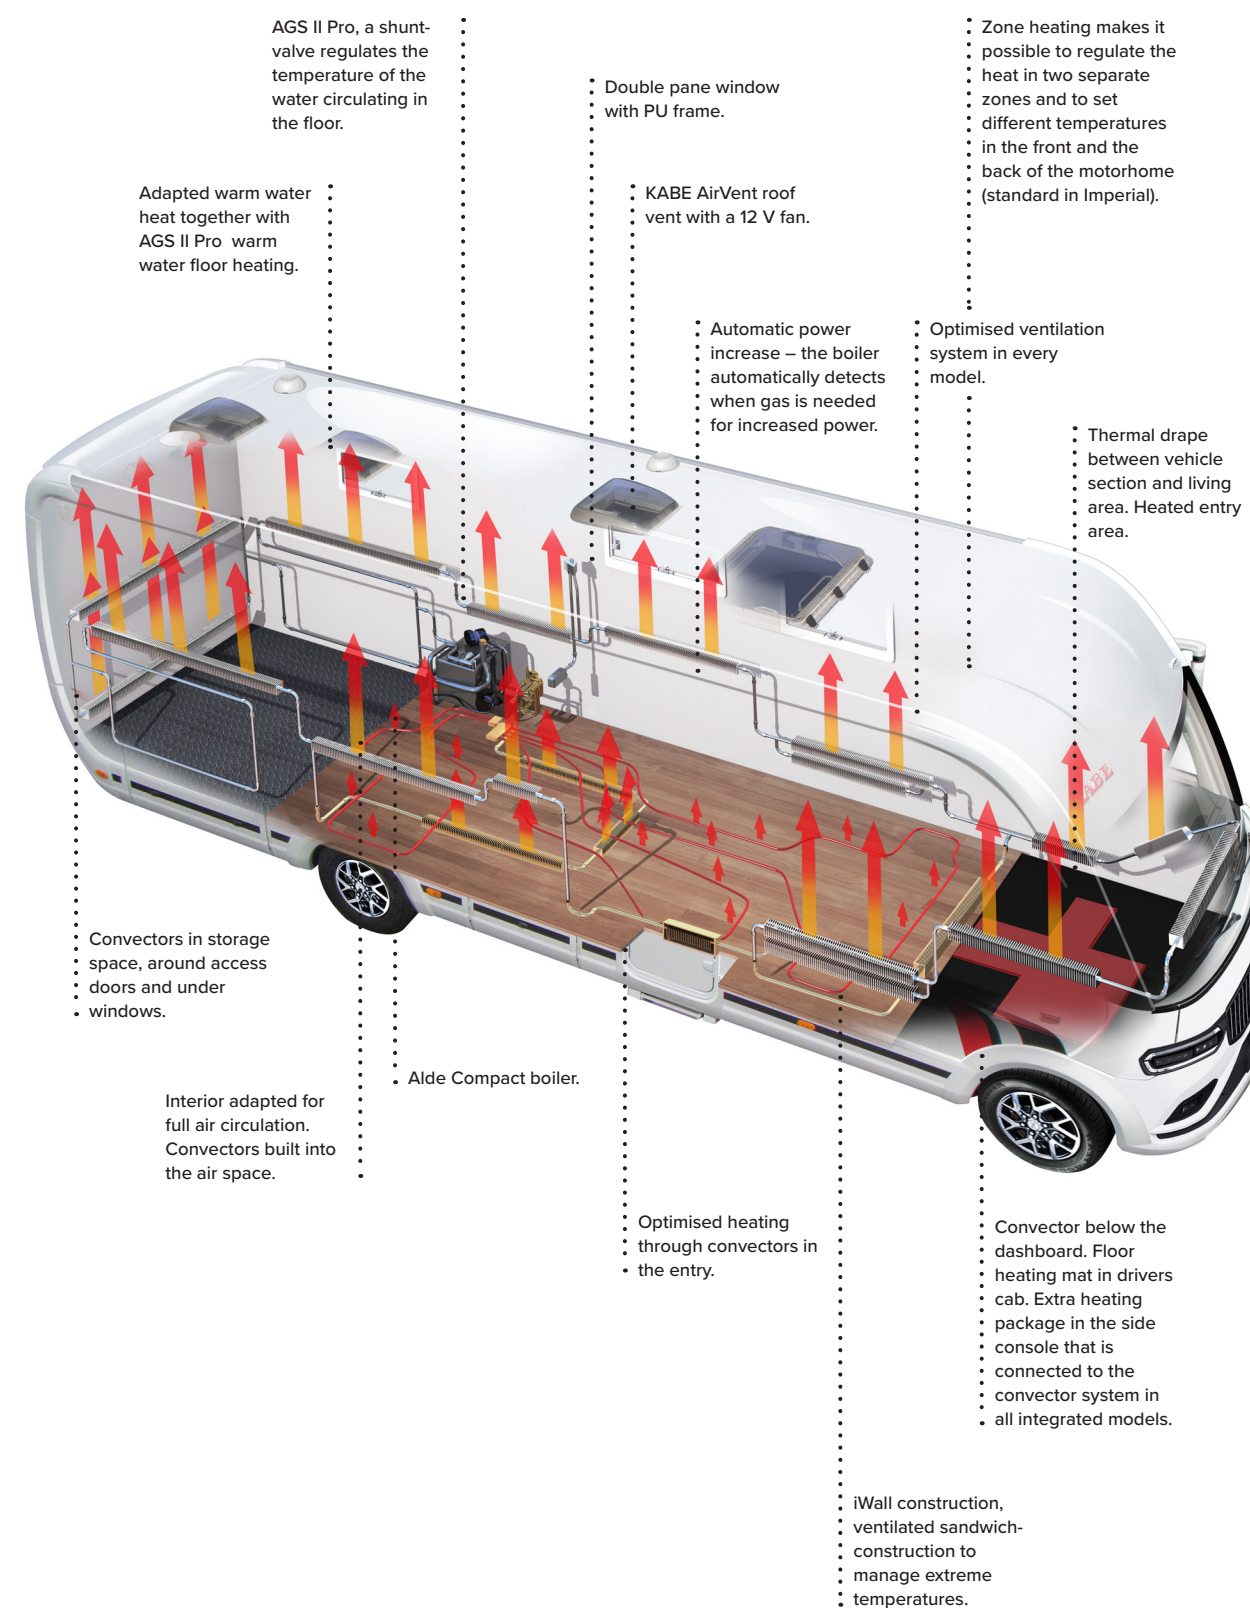

In Crown and Imperial, seat heating and seat cooling for the front seats is available as an option. When it's hot out, fans are activated in the seats to provide extra comfort on your journey.

The efficient Dometic FreshJet FJX4 2200 is a ceiling-mounted climate control system with quiet and energy-efficient operation and an aerodynamically designed exterior unit. The system can be managed via remote control, the Dometic Climate app, the touch-panel on the interior unit or via the KABE Smart D panel. Night mode with reduced fan speed and Clean Air technology that reduces bacteria and unpleasant odours are included. Standard in Imperial, available as an option for other models.

With more than 65 years of experience and ongoing product development, we can proudly say that every KABE motorhome answers these tough requirements – and more.

KABE Motorhome heating systems

Warm in winter and cool in summer

SMART -CLIMATE+ SYSTEM

Intelligent heating system

We prioritise your comfort! The following is always included in all KABE motorhomes:

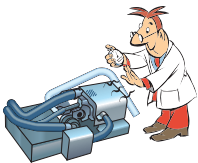

- ALDE Compact boiler.
- AGS II or AGS II Pro warm water floor heating system.
- Densely packed convectors.
- Optimised ventilation system.
- Interior adapted for full air circulation.
- iWall construction.

Inner sheet metal in walls

The sheet behind the wall covering is heated by the indoor temperature and helps prevent condensation.

- KABE sandwich construction consists of an outer sheet, ecoprim insulation, an inner sheet and inside wall covering.
- The heat from the radiators advance up along the walls.
- The inner sheet in the wall distributes the heat evenly across the entire wall, whereas plywood walls, for example, do not conduct any heat at all.

Fuel heater engine circuit

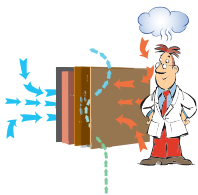

Enjoy your winter trip! With a heated driver's cab, you will always drive comfortably, even when it's extremely cold out.

- KABE motorhomes are equipped with a fuel heater engine circuit (not for Novum, included with the Heavy package) to heat the engine circuit.
- The timer allows you to heat the driver's cab in advance, even with the engine turned off, up to 24 hours prior to departure.
- With the help of a heat exchanger, the fuel heater engine circuit can provide heat in the living areas of the motorhome as well (not for Novum, included with the Heavy package).

Central heating

The powerful heating system can withstand large temperature differences between the outside and inside.

- Heating boiler ALDE Compact 3030 with a touch-screen display and an electric cartridge of 3 kW, Propane gas operation with 5,5 kW (5500 W), for a total effect of 8,5 kW.
- The heating system has a 12 V circulation pump, integrated water heater and separate expansion tank.
- A cover is placed around the gas unit for the most efficient hot water effect.

Ventilation in walls and floors

KABE's unique construction easily prevents moisture in the walls (especially winter time) and eliminates the risk of moisture damage.

- KABE is the only manufacturer to include a ventilating inside wall covering that allows the warm air circulating up the walls to pass through.
- Condensation on the floor is caught by the ventilating floor covering along the outer edge and is dried out when you turn on the heat.
- KABE's inside wall covering has a sound insulating effect.

Drivers Cabin Heating System (Crown, Imperial)

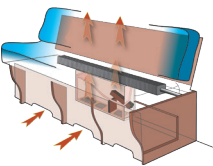

Driving comfort and a pleasant home in summer and winter.

- Heated windscreens in all fully integrated models.
- Warm water floor heating mat, driver's cab.
- Built-in convectors inside door step (vehicle section).
- Thermal drape for lower part of the dashboard prevents cold air from the front.
- Convector between vehicle section and living area form a heat barrier.
- Extra heating package in side console is connected to the under floor heating system.

Integrated heating system

KABE's warm water heating system heats from the outside and in, so that walls, furniture and interior are heated as well.

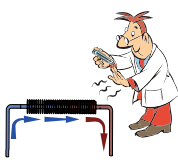

- The floor heating system is connected to the convector system, which means that the air circulates throughout the entire motorhome when the heat is turned on.
- The system is powered by both gas and electric.
- KABE is constructed with extra wide convectors under all windows to maintain maximum heat in the air so that any condensation is vented away from the windows.
- Convectors between the driver's cab and living area create a heat barrier between the two areas.

Optimal air flow

Ventilation and air flow are key to maximum living comfort in your motorhome both in winter and summer.

- Our interior is adapted to provide optimal air flow throughout the motorhome, even behind cabinets and sofas.
- The distance between sofas and beds and the angle of the sofa backrest are carefully calculated.

The best heating systems

Extra heat on really cold days.

- With our heat exchanger, you can easily conduct heat from the engine to the living area during your trip.
- All integrated motorhomes include heated double floors (except for R i810 LGB), which provide heated storage areas and a better heat in the living area.
- Heating convectors under the dashboard, by the side console and entry steps.
- Double pane glass in doors and side windows (driver's cab).

Superior floor heating comfort

Comfortable warm floors throughout the entire motorhome!

- Our custom designed patent-pending automatic warm water floor heating system – AGS II – with four loops provides more even heat.
- The heat circulates in aluminium ducts that reach all the way to the entrance door, kitchen cabinets and bathroom.
- Heating plates distribute the heat evenly over the entire floor.

Angled cable ducts

Efficient and energy-smart details.

- Maximum heat is absorbed from the convector and accelerates the airflow past the windows.
- Our unique cable ducts are angled to allow the air to flow freely past the windows.
- Electrical wiring, water and waste water pipes are hidden in the cable ducts.
- In winter, the construction quickly thaws residual water in the pipes.

Load monitor

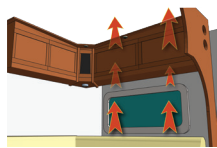

Helps you conserve electricity.

- The boiler's power consumption of electricity is automatically reduced during particularly heavy loads, for example when several electrical appliances are used at the same time.

AGS II Pro (option for Novum)

Adjusts the heat according to your personal needs.

- With AGS II Pro (standard in Gemstone, Royal and Imperial), the floor heating can be operated separately.
- A shunt valve regulates the temperature of the water circulating in the floor.
- To reduce energy consumption, the system is interval controlled. The water circulates in the system during certain pre-set time periods, which reduces the energy consumption in the boiler and protects the battery at the same time.

Free airflow

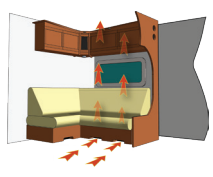

KABE's construction allows the air to flow freely from the floor, under beds and sofas, up to the ceiling, through our ventilated overhead cabinets.

- The overhead cabinets have built-in air ducts to let the warm air pass freely by the joint between the wall and ceiling and on towards the middle of the motorhome.
- A partition at the rear edge of the cabinets keep the ducts open even when the cabinets are full.

Balanced heat distribution

KABE motorhomes are designed for the best possible heat distribution.

- KABE design allows the warm air to pass freely from the floor, under beds and sofas, and up to the ceiling through our ventilated overhead cabinets.
- KABE has the market's best and most even heat distribution in the living area and in other spaces (wardrobes, bathrooms and overhead cabinets).

Ventilated sofas and beds

Sofas and beds are carefully placed to create an air space which enables full air circulation under all beds and bases.

- Sofa backrest and cable trays are angled to accelerate the airflow past the windows.
- The sofa backrest and the space by the bed are heated when warm air is distributed along the wall.

SAFETY

All the time in every situation

We want you to feel secure in your investment, so that you can fully enjoy your days off. That's why our motorhomes are built to the highest safety standard and meticulously tested to optimise the use and experience in every location and in all situations.

KABE + Mercedes-Benz + AL-KO

We have great respect for the challenges you face on the road. A few examples are wet, slippery roads and rapid change in temperature. We devote time and resources to keep you safe on the road. When you invest in a KABE, we deliver a motorhome that is built in one of Europe's most modern motorhome factories, and developed for an ultimate driving experience that is also safe and comfortable.

At KABE, we do not compromise quality ever. That is a well-known fact, We take our efforts even a step further, to achieve the highest standard possible and superior driving characteristics, regardless of climate and road conditions.

In combination with a motorhome base from Mercedes-Benz, your KABE is a vehicle focused on the utmost safety and industry cutting edge technology. With a tailor-made chassis from AL-KO, KABE produces "time-tested" motorhomes with a driver-feel similar to that of a passenger car.

In addition, we've made several updates and further improved actions to ensure your safety in the event of a collision.

With a focus on safety

PASSIVE SAFETY SYSTEMS (Collision Safety)

Solid body: The driver's cab and the living section are joined with a steel structure. The walls and the front of the motorhome are built with the "sandwich" principle to maximize torsional rigidity. The A-column is made with one-piece solid construction. The steel structure is joined to the driver's cab with solid steel plates, which provides a strong attachment to the living section. The inner walls are joined to the outer walls with an F-shaped aluminium profile.

Unique construction for the passenger seats prevents you from sliding under the seat belt: The sofa is equipped with a metal frame that hooks into a groove on the underside of the cushions and prevents the cushion from sliding away in a collision.

Steel frame inside the sofa: The passenger seats have a reinforced metal frame inside the sofa base to keep it from collapsing in the event of a collision. The metal frame also holds the water tank securely in place. The sofa itself is integrated with the water tank enclosure, which is firmly anchored to the floor. This reduces the risk of the sofa breaking or detaching from the floor in the event of a collision.

Collision proof refrigerator with a steel beam (applies to certain models depending on the location of the refrigerator).

Steel frame around the battery: A new, robust metal frame keeps the living area's battery securely in place, even in the event of a collision.

Foldaway table top: The table can be folded down (or removed in Van) to create more space between the driver's front seat and the passenger seats for a safer ride.

ACTIVE SAFETY SYSTEMS (Accident Prevention Systems)

All KABE motorhomes are built with extra comfort and excellent safety features. We offer the best in modern vehicle design and a range of advanced safety systems. Nothing is left to chance, and a multitude of technical features ensures a safe and enjoyable driving experience.

As of model year 2025, all KABE motorhomes are equipped with Mercedes-Benz's innovative MP Camera, an advanced safety feature that raises the standard for comfort and safety on the road. This groundbreaking camera is designed to detect everything from speed limits to lane departures, providing the driver with real-time information for safer driving. Intelligent Speed Assist is included in all models. Active Lane Keeping Assist is included in fully integrated models.

By continuously analysing the environment and providing immediate feedback, the MP Camera helps prevent accidents and improves overall safety for both drivers and passengers.

Every KABE-model includes Heavy-Duty motor, automatic emergency brakes, traffic light assistance and rain and twilight sensors. Side wind assistant (not for tandem axle models) and attention assist are included for Novum, Royal, Crown and Imperial.

If you add the Comfort package (available as an option for our Novum and Royal models), Active Lane Keeping Assist, High Beam Assist and Thermotronic for the driver's cab are included. In KABE Van, parking sensors and collision avoidance sensors are also included.

Our fully integrated vehicles with a tandem axle, have a standard total weight of 5,500 kg.

Mercedes distance-sensing cruise control, Distronic, is standard in Imperial and available as an option for Novum, Royal, and Crown.

Read more on the following page.

Mercedes feel all the way

The elegant front exterior, luxurious driver's cab plus a long list of technical and connected functions distinguishes all KABE motorhomes.

In KABE Van, Novum, Royal, Crown and Imperial-models, Mercedes' unique 9G-tronic is included. 9G-tronic is a fully integrated automatic transmission with 9 speeds that is adapted to the specific requirements of a motorhome for reduced fuel consumption and emissions.

The latest voice-control multimedia system from Mercedes with a 10.25-inch MBUX touch-screen and rearview camera is another great feature. The user-friendly system has everything you need in terms of infotainment, navigation and communication. It is operated via the high-resolution touch-screen or the innovative touch-controls on the multifunction leather steering wheel. A few examples:

- Intelligent voice control that continuously improves with the help of AI.
- 3D graphics.
- Dynamic navigation can help you avoid traffic and shorten your travel time.
- The integration of smart phones via Android Auto, Apple CarPlay or Mirrorlink and Bluetooth with hands free function makes it possible to have a phone conversation while you are driving without distraction.
- Traffic information in real time.

The information is clearly shown on the vehicle's display, enabling the driver to stay informed and make thoughtful decisions while driving.

The active distance assistant, Distronic, can maintain the distance set by the driver to the vehicle in front. A safe and useful function on the highway or in stop-and-go traffic (standard for Imperial, option for Novum, Royal and Crown).

Electric exterior rearview mirrors are adjustable and heated. Keyless Start is also included.

All KABE modelseries are built on the powerful combination of Mercedes-Benz and AL-KO, with a suspension and shock absorption that is developed and perfected by AL-KO together with Mercedes-Benz. The chassis are prepared for the addition of HY4 hydraulic support legs (standard in Imperial), a tow bar, ClickFix mechanical support legs and load carriers.

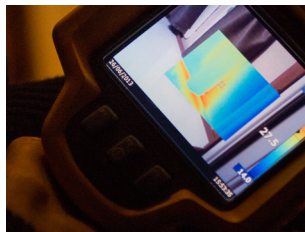

CLIMATE CHAMBER

The motorhomes are carefully tested in our climate chamber.

-35 TO +55 DEGREES

Our motorhomes are tested in temperatures from -35 up to +55 degrees.

QUALITY

With the help of thermal cameras, we ensure that the construction reaches exactly the quality we strive for.

COMPLETELY WATER PROOF

Advanced technology is used to check that the motorhomes are absolutely waterproof.

OPTIMISED WEIGHT DISTRIBUTION

Scales are used to balance and optimise the weight distribution between axles.

TOWING CAPACITY

Measuring equipment is used to check towing capacity.

DURABILITY

Pressure is used to test the strength of the vehicles.

AIRFLOW

Airflows are carefully checked with smoke.

VENTILATION

Correct ventilation is vital and carefully tested.

GAS SYSTEM

The gas system is pressure tested.

ELECTRICAL SYSTEM

Electrical systems and other important functions are carefully checked before our motorhomes can leave the factory.

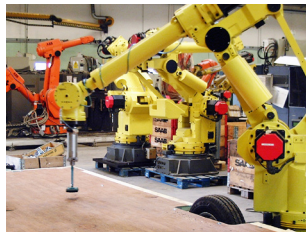

DRIVING DURABILITY TEST

Durability tests are performed and simulated with equipment corresponding to 10,000 km of normal driving.

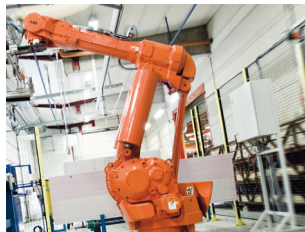

RAIN CHAMBER

In the rain chamber, the motorhomes are tested with a high pressure sprayer.

BODY ENDURANCE TEST

Endurance tests are performed on every part of the body.

MANUFACTURING

We use state-of-the-art technology to manufacture our motorhomes.

Built for the toughest tests

Nothing in a KABE is left to chance. Throughout you will always find thoughtful design combined with the highest quality construction and materials. To achieve this, we conduct extensive tests for even the smallest details and functions. For example, the motorhome is tested in our climate chamber to withstand temperature differences of as much as 90 degrees. With our advanced technology, we ensure that the motorhome is completely sealed. We also check endurance, durability, airflow, electrical systems and much more. It is a matter of KABE-quality and safety that stands up to the tough tests.

10 strong reasons to choose KABE

Year-round comfort

KABE motorhomes are designed for many different climates, to function as well during cold winter as in hot summers. We take no shortcuts when it comes to insulation, ventilation and heating. For maximum stability and complete moisture control, the body is built with KABE's own iWall system. All models are equipped with the Alde 3030 boiler and warm water heating is standard. Many of the important year-round features are built into the design and may not be visible when you step into the motorhome for the first time. But you will definitely notice the difference when get to know your KABE.

Quality

A motorhome from KABE maintains the highest quality down to the smallest detail, and the models are developed from scratch in KABE's manufacturing facility in Tenhult, Småland. KABE continuously works on product development and each new model year is characterised by several interesting innovations. We design and test new solutions in our own development centre and every single motorhome is built in our own factory, which is one of Europe's most modern. We have skilled employees, our own electricians, a carpentry shop and a modern machine department. And our subcontractors are among Europe's leaders in their various fields.

Resale value

No matter which model you choose, you can be sure your KABE represents the best quality in the market for every price segment. Much of what is standard in a KABE, you have to pay extra for from other manufacturers. It is a matter of quality and function that lasts. You can feel confident that the value of your KABE will hold up well in the future.

Technology

Your new KABE always includes cutting edge technology and it is one of the most well equipped motorhomes in the market. At KABE, we think ahead and put lots of time and effort into preparing for future challenges with new solutions and technology development. In recent years, we have received several prestigious awards for our innovations, including ventilation and heat recovery. We do everything possible for the most comfortable experience on the road. So, before you start comparing prices – find out what is actually included in your KABE.

Design

Our modern and spacious interior with light colours and materials, is truly Scandinavian design at it's best. You will find thoughtful details such as recessed cabinet doors, rounded corners and ergonomically designed seat cushions. Materials are carefully selected with high quality and the result is that special KABE feeling, where superior design and function always go hand in hand. The exterior is characterized by timeless, elegant lines and graphics that give each KABE its distinctive character.

Functionality

With more than 65 years of experience, KABE develops and builds motorhomes for active, year-round use. Your KABE includes many smart solutions for a KABE-lifestyle that is as convenient and relaxing as you like. Some examples are the practical ski storage with lighting, central locks for kitchen drawers and USB-outlets that are placed exactly where you need them.

Climate and environment

At KABE, environmental issues are top priority and we are committed all the way – from material selection and production technology to energy values and emission levels. We want to lead the development towards an even more climate- and environmentally adapted motorhome industry. Naturally, we stand behind UN's global goals for sustainable development, good working conditions, increased diversity and equality, and to maintain a high standard in business ethics.

Safety

When you buy a KABE you invest in safety. We want you to feel secure in your investment and fully enjoy the days in your motorhome. Our dealers include a 7-year warranty on water infiltration with all new models. Your safety on the road is extremely important to us, and our motorhomes are equipped with many active safety systems. Your KABE also includes many carefully developed passive safety systems to protect you in an accident. A few examples are a solid body and robust construction as well as steel frames around batteries and water tanks to prevent them from moving in a collision.

Authorised dealers

KABE has a wide network of authorised dealers and service stations, not only throughout Scandinavia, but in several European countries as well. They provide expert advice and help you with financing and insurance for your KABE. And once you are on the road, we have more than 100 authorised service stations in northern Europe. You will always find professional help, should you need it. Many have worked with us for decades. You are in safe hands!

Lots of flexibility

There is a KABE for everyone. It's just a matter of figuring out which size, model, equipment and price range is right for you and your family. When you find your favourite model, you can select the optimal floor plan with KABE's Flexline System. There are many options and great flexibility. With our online product configuration system, building your KABE is easy. Choose “Build your KABE” on our home page www.kabe.se/en, or visit one of our dealers.

2025 MODEL PROGRAM

A KABE for everyone – find your favourite!

We have developed five model series, each with unique features, to suit the various needs and preferences of our KABE-owners. You can always be sure that KABE year-round comfort, high quality, safety and lots of smart solutions are included in every model. KABE motorhomes are always among the most well equipped in each price segment of the market.

KABE Van

Smart and carefully designed with carefree and flexible mobile living in mind. KABE Van is optimised and compact in size, without compromising KABE's high standard and Mercedes-Benz's many added values. KABE Van is 6.97 m long and can be ordered with twin wheels for an increased permissible load weight of 7 tons. Perfect if you want to tow a horse trailer, heavy work equipment or a boat.

For 2025, KABE Van features a brand new sporty exterior design! White exterior is standard and grey metallic is available as an option (photo on the left).

Page 58

KABE Novum

KABE Novum, built on a Mercedes-Benz chassis with an AL-KO frame, is a versatile semi-integrated motorhome with Crossover configuration. It is a leisure vehicle with complete KABE-standard and a total weight of 3.5 tons. Without special drivers license requirements! KABE Novum is 7.50 metres in length and prepared for a comfortable drop-down loft bed above the dining area (available as an option for x750 LXL and LGB). With the Heavy package, the total weight increases to 4.5 tons, providing even better load capacity. The Royal package includes a long list of extra features.

News! KABE Novum Compact is an entirely new model. It is slightly narrower and shorter and easy to drive.

KABE Novum lives up to KABE's high quality throughout and you will find that many conveniences are included in the standard version.

Page 64

KABE Royal

Semi-integrated KABE Royal is developed with high quality and great flexibility for your driving pleasure. The vehicle is 2.50 metres wide and equipped with an extra drop-down loft bed. Royal is built on a Mercedes-Benz Sprinter base with a chassis from AL-KO. 170 hp engine, 9-speed automatic transmission, Heavy-Duty, leather steering wheel, automatic brake, MBUX 10.25" touch-screen and attention assist are some examples of what is included. A motorhome for those with high demands on equipment and comfort. The model is available in lengths 780 and 880.

Page 70

KABE Crown

KABE Crown is a fully integrated premium series with excellent design and a standard equipment list far beyond the ordinary. Crown is built for those who want the very best in a motorhome that is not the absolute largest. The model is characterized by thoughtful comfort and intelligent functionality throughout. Our Crown models are built on a base from Mercedes-Benz with all the latest technology and a custom chassis from AL-KO. Available in lengths 760, 790, 810 and 860.

Page 78

KABE Imperial

It doesn't get better than this! From design, quality and comfort to driving characteristics, Imperial is KABE's real frontrunner with extra-large and luxurious models that provide an exceptionally comfortable accommodation. All Imperial-models are built on a Mercedes-Benz base with a specially designed AL-KO chassis – both recognised on the outside and experienced when driving. The motorhome is surprisingly similar to a passenger car in terms of comfort and safety and it is loaded with many smart functions.

KABE Imperial is motorhome-living at a completely different level. Choose between lengths 790, 810, 860 and 910.

Page 86

KABE FLEXIBILITY

Your personal floor plan

Just like when you buy a permanent home, everyone has their individual taste and requirements in terms of the floor plan and the look of the motorhome. We are all simply different. That's why KABE offers a wide range of layouts and options to make it possible to build the motorhome that works best for you.

Floor plan: QB, LQB

A large double bed, centered in the back of the motorhome.
L= L-shaped kitchen

Floor plan: LXL

In the back of the motorhome, you will find a double bed on one side and bathroom with a shower on the other side.
L= L-shaped kitchen

Floor plan: T, LT

Two single beds are located in the middle of the motorhome. Bathroom with a walk-in shower spans the entire width of the rear of the motorhome.

Design your perfect KABE

Create your dream-KABE in peace and quiet at home. With our flexible configuration tool at www.kabe.se/en, all the options and possibilities are clearly displayed. Choose one of our many models and floor plans as well as details such as upholstery and optional equipment. When you complete your selection, a summary of your ultimate motorhome is presented with price and contact information for the closest dealer.

It couldn't be easier!

KABE Van

KABE Van is the perfect choice for a carefree, relaxed lifestyle with a focus on adventure. It is a compact and optimised premium model built with KABE's superior quality. Smart and carefully designed for year-round use and surprisingly similar to a personal car in terms of both comfort and safety.

The model is built on a base from Mercedes-Benz Sprinter with a raised ceiling and a total length of 6,97 metres. It features rear wheel drive and Mercedes 4-cylinder 170 hp diesel engine with Euro-6 emission standard. Four wheel drive in combination with 190 hp engine is available as an option. For increased safety, the rear view camera image is displayed on the touch-screen.

In 2025, KABE Van is updated with a new exterior design and an upgraded Offroad package is available as an option!

KABE Van is delivered with a stylish white exterior, Camper-White. It has a white front bumper, white electric awning and KABE's unique decal graphics with a 3D-look. As an option, you can order your KABE Van in elegant blue-grey metallic, Tenorite-Grey, with a black electric awning.

Standard equipment in KABE Van:

- ▶ Swedish-built premium van on a base from Mercedes-Benz Sprinter A3
- ▶ 6.97 metres long with a raised roof, the living area height is an impressive 196 centimetres
- ▶ Mercedes 4-cylinder 170 hp diesel engine with Euro-6 emission standard
- ▶ 9-gear automatic with 9G-tronic rear wheel drive (four wheel drive in combination with 190 hp engine is available as an option)
- ▶ Active safety systems with Intelligent Speed Assist
- ▶ Connected to digital services
- ▶ KABE's built-in values, comfort and amenities
- ▶ Attention assist
- ▶ Automatic brakes
- ▶ Automatic dimming for high beams
- ▶ Electric parking brake
- ▶ Traffic light assistant
- ▶ Heavy Duty Motor
- ▶ LED-lights for low and high beams
- ▶ Parking sensors and collision avoidance sensors
- ▶ Rain and twilight sensor
- ▶ Side wind assistant
- ▶ Cover for the seat base
- ▶ Thermotronic
- ▶ Electric exterior side mirrors
- ▶ Built for year-round use with year-round comfort
- ▶ Warm water floor heating AGS II Pro, double floors and extra convectors

- ▷ Kitchen cabinet doors: Grau
- ▷ Kitchen countertop: Perla laminate
- ▷ Table: Perla laminate
- ▷ Bathroom countertop: Light Concrete laminate
- ▷ Wardrobe doors (bedroom): Atlas Zeder
- ▷ Fabric collections: Charlotte (dark beige) and Riverside (grey)

KABE Van 2025

KABE Van features the interior wood laminate Atlas Zeder with an inviting warm brown tone. A light floor, overhead cabinet doors in the light shade Grau, along with kitchen countertop and table in the laminate Perla complete the modern look. Every interior is built in our own carpentry shop and equipped with a range of smart and practical storage solutions. The two single beds convert easily into a comfortable double bed. Reading lights in black and a smart touch-switch are also included in the bedroom area. In the bathroom, our swivel sink makes room for the shower.

KABE Van is a completely flexible vehicle that you can easily adapt for maximum storage during travel, and the most possible living space and comfort when you make a stop on the journey.

Mercedes front seats feature KABE custom upholstery. The large panorama skylight provides plenty of light. Blackout curtains and light fixtures are included.

For 2025, the freshwater tank has an increased volume of 91 litres. The wastewater tank has a total volume of 83 litres. Exterior lighting above the sliding door is included. With solar panels, you can add the AC option. Twin wheels are available as an option. ALDE Flow in boiler 3030 Plus is available as an option.

Unique year-round features with the best heating comfort and insulation in every space.

The body floor space is insulated with 10 mm plastic cells to insulate the space between the body and living area floors. In that area, for example water tanks and water pipes are located and well protected from freezing. In addition, the living area floor is insulated with 25 mm Ecoprim insulation and equipped with our warm water floor heating which provides extremely comfortable temperatures in the living area. Our warm water floor heating system, AGS II Pro, with four loops provides very even heat. The heat circulates in aluminium pipes that reach all the way to the entrance door, kitchen area and bathroom. Heating plates distribute the heat evenly across the entire floor.

Insulation is sprayed into the ceiling, walls, beams and every single space behind the interior walls. This is a new technique, where small glue-coated beads are injected and cured into a durable and solid insulation with a thickness of 35-50 mm. This technology minimizes the risk of cold zones. Optimised insulation combined with ALDE heating system and excellent ventilation result in KABE's unique heat distribution throughout the living area. Our interior is also adapted to provide optimal air circulation in the entire KABE Van, even behind cabinets and sofas.

A warm water convector loop surrounds the entire living area in combination with three thermal barriers to prevent cold drafts. The thermal barrier consist of convectors located under the floor, between the driver's cab and living area, entrance and living area as well as by the rear doors. The windows in the living area include insulated frames.

TECHNICAL SPECIFICATION	
Interior length, living area	4307 mm
Interior width	1787 mm
Interior height	1960 mm
Overall length	6967 mm
Overall width (not including side mirrors)	2020 mm

OTHER EQUIPMENT

Water purification system – Alde AquaClear UV-C (Alde Compact 3030 boiler). Efficient water purification that protects the user in a gentle and eco-friendly way. Unwanted viruses and bacteria, pesticides and chemicals are removed. The water is disinfected with UV-C light generated from LEDs. In addition, the water passes through a carbon filter that removes any odour, bad taste and colour.

KABE Novum

KABE Novum is a light 3.5 ton semi-integrated model that is affordable with lots of equipment. KABE Novum is built with Crossover configuration on a Mercedes-Benz Sprinter base and a chassis from AL-KO in the length 720 and 750. A practical drop-down loft bed above the dinette is available as an option for x750 LXL and LGB. If you prefer additional cargo weight, choose the Heavy package with a total weight of 4.5 tons. With the Royal package, additional equipment is included as well as many more options.

For model year 2025, we introduce KABE Novum Compact! A slightly shorter, narrower and more agile motorhome that is easy to navigate on the road and at the campsite. KABE Novum Compact is available with LXL or LGB floor plan.

The compact size in combination with smart material choices, result in a total cargo weight of approx. 500 kg.

A complete list of equipment is included on the right page.

Two Crossover models:

- ▷ **Travel Master Novum Compact c720**
- ▷ **Travel Master Novum x750**

Standard equipment in KABE Novum and KABE Novum Compact:

- ▶ Built on a Mercedes-Benz Sprinter base

See options and packages for Novum on pages 94-98.

KABE Novum 2025

The interior is characterised by KABE's exclusive carpentry produced in-house with warm brown Atlas Zeder laminate, tabletops in a mild latte-coloured laminate, countertops with a Light Concrete look and light walls and floor.

A kitchen with lots of equipment, plenty of storage and a practical and thoughtful design is included in KABE Novum. Doors and drawers are neatly recessed and feature brand new handles in black. The overhead cabinet doors in Cashmere provide a nice contrast. All kitchen drawers are equipped with soft-close function and top-mount handles.

In our 2025-models, the sink has a modern square shape that maximizes the space and makes clean-up easier. An additional work surface is provided by a cover that can be placed over the sink — perfect for cooking and food preparation. An elegant new black surface-mounted faucet adds a sophisticated touch to the kitchen. Additional upgrades are a new Dometic stove and a new spacious Thetford refrigerator. You will have everything you need for an enjoyable and efficient cooking experience.

You will always be comfortably seated for travels and during meals and relaxing time. All of our cushions have Premium Foam inside and anti-slip material on the underside to keep them in place. Choose between two fabric collections. The Royal-package includes all four fabric options. Leather or artificial leather is available as an option.

Single or double bed? Choose the floor plan that suits you and your family best. Our Novum-models include upholstered headboards with a stylish new reading lights in black. You will also find KABE's smart and functional touch-switch, which provides easy control of the indirect lighting, the ceiling light in the bedroom area, as well as the lights in the living area.

For your convenience, a shower is included in all KABE Novum models. ALDE Flow in boiler 3030 Plus is available as an option. Light Concrete bathroom countertop with a contemporary look is complemented with a matching laminate on the wall behind the mirror and the shower wall in our T-models.

The front seats from Mercedes are finished with KABE custom design upholstery. 3rd and 4th passenger seats include seat belts with Isofix and an adjustable headrest for the most comfortable drive possible.

In the new Novum Compact, there's space for a 32-inch TV in the entry, along with a pull-out cabinet combined with the slim Thetford refrigerator.

Projected KABE logo in the entry is available as an option with the Design package.

News! For 2025, KABE introduces the brand new Novum Compact.

- ▶ Mercedes-Benz innovative MP Camera detects speed regulations (Intelligent Speed Assist).
- ▶ Increased garage space with extra height.
- ▶ Modern square sink with a new black faucet.
- ▶ New two-burner gas stove from Dometic.
- ▶ Slim new Thetford refrigerator in matte black metallic.
- ▶ New design with a black stripe for overhead cabinets.
- ▶ Kitchen drawers with new top-mount black handles.
- ▶ Stylish new black handles for wardrobe doors, storage and cabinets.
- ▶ All chrome interior details, such as reading lights, faucets and shower now feature a black finish.

Travel Master Novum Compact c720 LGB

KABE Novum Compact c720 LGB features a practical storage space under the two raised single beds in the back of the motorhome. You can easily access the space from the outside with a large external door. A bathroom area with a shower is located in the middle on one side of the model, while a straight kitchen with a counter, gas stove, and kitchen fan is located on the other side. Face-to-face sofas provide comfortable and social seating.

Travel Master Novum x750 LXL

KABE Novum x750 LXL is loaded with all the basics for a comfortable holiday, any time of the year. A double bed and bathroom with a shower are located in the back of the motorhome. In the L-shaped kitchen, you will find many innovative solutions and lots of space to cook. In addition, there is room for an adjustable loft bed above the dinette (available as an option).

Travel Master Novum x750 LGB

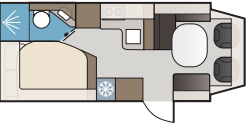

KABE Novum x750 LGB can fit lots of luggage in the generous storage space located under the two raised single beds in the back. The area is easy to access from the exterior. A bathroom with a shower is located in the middle and an L-shaped kitchen on the opposite side. There is also room for an adjustable loft bed above the dinette (available as an option).

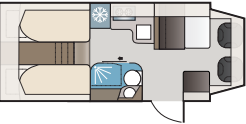

Travel Master Novum x750 T

KABE Novum x750 T with two single beds and a large bathroom with a walk-in shower that covers the entire width of the vehicle in the back, creates a motorhome you can enjoy for years! Our comfortable sofa and a well equipped kitchen completes this floor plan.

KABE Royal 2025

Our Royal motorhomes are designed for practical yet stylish living. We have adapted the entire interior to complement the wood laminate Atlas Zeder and it's inviting warm brown tone. Our 2025-models are updated with new black design-details.

Recessed doors and drawers in the kitchen are included. The countertop Light Concrete creates a fresh and spacious look. With the new square sink and black surface-mounted faucet, a new Dometic stove, and a spacious new Thetford refrigerator, cooking is a pleasure in this organized kitchen environment.

Our passenger sofa with an adjustable armrest makes your trip extra comfortable. There is also a slide-out function that makes it easy to adjust the angle of both the seat and backrest. The sofa is designed to prevent you from sliding under the seat belt in the event of a collision.

The option face-to-face sofa is available specifically for Royal x780 LXL. This sofa-solution creates an inviting space at the dinner table.

In KABE Royal, you can choose from four fabric collections. Leather upholstery or artificial leather is available as an option. All our cushions have anti-slip material on the underside to always keep them in place.

A handle with built-in lighting in the entry is convenient when you step into the motorhome.

A wireless charger for your mobile phone is included in the front (not for Royal x780 LB/LGB).

The headboard in soft, padded imitation suede with a printed 3D-pattern makes the bedroom extra cosy. The beds have spring mattresses, thick mattress pads and a base with flexible slats to support you when you lie down. Several of our models include an adjustable headboard. Updated black reading lights and a smart touch-switch are also included.

All Royal models are equipped with extra overnight space in the drop-down loft bed above the dining area (Crossover). After a good nights sleep the space is easily converted to make room around the breakfast table (see pages 76-77).

The Light Concrete bathroom countertop has a contemporary look. In our T-models, you will find a matching laminate on the wall behind the mirror and in the shower. ALDE Flow in boiler 3030 Plus is available as an option.

The front seats from Mercedes are finished with KABE custom design upholstery. A thermal drape in a stylish grey shade is installed in the lower part of the driver's cab (standard in all Royal). Our 3rd and 4th passenger seats feature seat belts with Isofix and an adjustable headrest that provides superior travelling comfort for the passengers.

KABE Smart Level is available as an option and includes a gas level sensor, tyre pressure sensor and level indicator that shows the vehicle's tilt when parked.

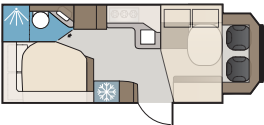

Distronic is available as an option.

Travel Master Royal x780 LXL

x780 LXL has an inviting and open floor plan with an L-shaped kitchen. Two double beds, one in the rear and a drop-down loft bed in the front, creates efficient space and provides extra space for two overnight guests.

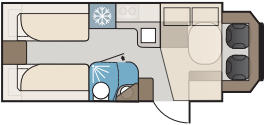

TECHNICAL SPECIFICATION

- ▷ Leather or artificial leather is available as an option

KABE Crown 2025

KABE Crown is a year-round motorhome with advanced technical solutions, comfort and design. The wide HartaLux front door is worth mentioning. It provides a functional entry and lots of light inside. When you unlock the door, the overhead entry light, the handle on the inside of the entry and the lighting along the steps automatically turn on.

Our Crown-models feature Atlas Zeder wood laminate interior and everything else inside is adapted to complement the warm brown shade. Overhead cabinet doors in the lighter shade Cashmere create a nice contrast. The skylight provides even more light inside.

In 2025, we are upgrading the kitchen in Crown with a new square sink and black surface-mounted faucet, a new Dometic stove and a new spacious Thetford refrigerator (see News on the left).

In KABE Crown, we include many comfortable details and you will get a good nights sleep, just like home. The headboard is covered in soft, padded imitation suede with a printed 3D-pattern. Comfortable mattresses, smart storage, reading lights and a smart touch-switch are included. The aluminium bed frame is robust and sturdy. As an option, you can add an electrical adjustable headboard (included for LQB-modes).

Smart storage solutions makes it easy to keep everything organised. Cabinets under the loft bed with lighting behind and lighting under the loft bed are some practical details. Reading lights finished in black with smart USB-outlets are placed throughout the motorhome.

The L-shaped sofa provides room for many and is included in all our Crown-models. Slide-out function with easy to adjust angle for both seat and backrest and an adjustable armrest provides ultimate driving comfort for the passengers. Seat belts with Isofix standard and adjustable headrests are also included.

All our cushions have anti-slip material on the underside to keep them in place. Leather upholstery or artificial leather is available as an option.

Our smart sofa construction with a built-in safety frame prevents you from sliding under the belt in the event of a collision – safe and secure!

Mercedes front seats are finished with KABE custom design upholstery. To keep you warm in the winter and cool in the summer, the option The convenient option "seat heating and seat cooling" is available for Crown and will keep you comfortable year-round.

An electric privacy shade that creates a cosy and private motorhome is included for the front window. In addition, a stylish grey thermal drape is included for the lower part of the driver's cab.

The deep storage space in between the motorhome's double floors are furnished with pull-out bins for even easier packing and storage (not for R i810 LGB). KABE Crown-models have a turntable (if there is not a pull-out track) in the gas compartment to facilitate the handling of heavy gas tanks.

150 litre freshwater tank is standard in Crown. ALDE Flow in boiler 3030 Plus is available as an option.

KABE Smart Level is available as an option and includes a gas level sensor, tyre pressure sensor and level indicator that shows the vehicle's tilt when it's parked.

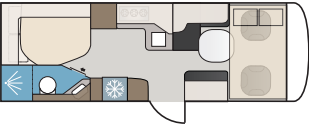

Distronic is available as an option.

Travel Master Crown i760 LXL

This model has lots of space. It can accommodate four people on the road and up to six can stay over! The back of the motorhome features a double bed and a toilet and shower. In addition, a drop-down double loft bed is located in the front and quickly ready for night time.

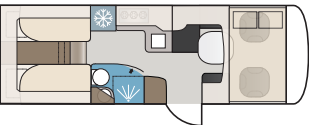

TECHNICAL SPECIFICATION

New rearwheel drive model! Travel Master Crown R i810 LGB

The new R i810 LGB with rear-wheel drive allows you to tow heavy trailers – up to 2 tons! This vehicle is suitable for pulling a horse trailer or a smaller car, for example. With the option twin wheels, you get a total payload weight of up to 7 tons. Otherwise, the layout is similar to the i810 LGB, featuring a generous cargo space beneath the raised beds in the back. This model can sleep up to 6 people.

Travel Master Crown i810 LGB

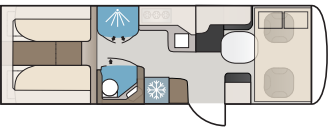

In this motorhome, space is not a problem. A large storage area with plenty of room is easy to access from the exterior. It is located under the raised beds in the back of the motorhome. In addition, the L-shaped kitchen next to the seating area has lots of storage space. This model sleeps a maximum of six.

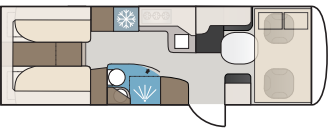

Travel Master Crown i810 LT

A fully integrated model that lives up to your expectations! You will find everything you need for a successful holiday including a practical L-shaped kitchen, a large bathroom in the rear of the motorhome and very comfortable beds.

Travel Master Crown i810 LQB

A large queen-size bed is located in the back of this model and it includes a drop-down double loft bed in the front of the motorhome. In total, including the convertible bed space in the seating area, i810 LQB features overnight space for five. The L-shaped kitchen with lots of smart storage makes this the motorhome of choice for a comfortable holiday.

Travel Master Crown i860 LGB

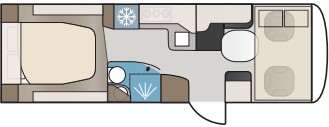

Our largest Crown-model has a generous floor plan. This motorhome features an oversized storage area, raised beds, separate toilet and shower, a spacious L-shaped kitchen and room for a total of 7 overnight guests! All built on a base from the premium brand Mercedes-Benz.

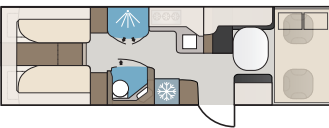

Travel Master Crown i860 LQB

A large and spacious motorhome with many practical storage areas. The seating area is located next to the generous L-shaped kitchen, creating a cohesive and functional living space. In the middle of this model, a toilet and shower are located on opposite sides and in the back you'll find a comfortable queen-size bed.

KABE Imperial

Our Imperial-series is the definition of the absolute premium segment of motorhomes. It includes the highest standard available, in every aspect. A luxury kitchen with a new unique hybrid stove, separate built-in oven, AC, queen-size bed, large and spacious bathroom, solar panels, inverter and double batteries, Premium Sound System, exclusive carpentry and luxurious leather upholstery, the most sophisticated warm water floor heating system on the market with automatic zone heating, hydraulic support legs, rear view camera and GPS are just a few examples of what is included. Imperial is built on a Mercedes-Benz base with an AL-KO chassis. The tandem axles at the rear provide an unbeatable smooth, safe and comfortable ride. KABE Imperial is for you, who want nothing but the very best.

Four fully integrated models:

- ▷ **Travel Master Imperial i790**
- ▷ **Travel Master Imperial i810**
- ▷ **Travel Master Imperial i860**
- ▷ **Travel Master Imperial i910**

Our fully equipped KABE Imperial includes:

(In addition to the standard equipment for Novum on page 65, Royal on page 71 and Crown on page 79.)

- ▶ DISTRONIC (adaptive cruise control – keeps the distance to the vehicle in front)
- ▶ Electric passenger window
- ▶ AC for the living area – Dometic Fresh Jet FJX4 2200
- ▶ ALDE zone heating
- ▶ Central lock for several outside storage doors
- ▶ Shower outlet in the garage
- ▶ Hydraulic support legs
- ▶ Corian Savannah kitchen countertop
- ▶ Glass shower door (i860 and i910, not for T-models)
- ▶ Electric adjustable headboard (option for LGB-models)
- ▶ New hybrid cooktop with an induction surface and two gas burners
- ▶ Sabbia High Gloss overhead kitchen cabinet doors
- ▶ Flush toilet with a ceramic bowl
- ▶ Two leather collections and one artificial leather (4 fabric collections are also available)
- ▶ Solar panel, inverter and double AGM 130 Ah batteries
- ▶ Premium Sound System with DAB
- ▶ Electric locks for the lower kitchen cabinets and drawers
- ▶ KABE Smart Level

See options for Imperial on pages 95-98.

KABE Imperial 2025

Travel Master Imperial is a year-round vehicle with up-to-date quality equipment. The exclusive interior with beautiful craftsmanship and a timeless design set the tone as soon as you step through the front door. The entire motorhome has a warm and inviting feel inside with Atlas Zeder wood laminate, overhead cabinets with doors in Cashmere, a light floor and Latte-coloured tables and tops. In 2025, we are upgrading the look with new black interior details!

Our Imperial-kitchen, includes overhead cabinet doors in a mild crème shade with a gloss finish, Sabbia High Gloss, and the countertop Corian Savannah. All Imperial-models feature a new modern square sink and Flexi-faucet as well as a new hybrid stove with induction and two gas burners. A separate built-in oven is placed above the new spacious Thetford refrigerator (in i790, the oven is placed in the counter). Additionally, the i910-model includes a drop-down shelf with space for items such as a coffee maker.

The front seats in Imperial feature KABE custom design leather upholstery and integrated seat belts.

Our L-shaped passenger sofa has an adjustable armrest and slide-out function. It's easy to adjust the angle of both the seat and backrest. Seat belts with Isofix standard and an adjustable headrest provide very comfortable travels. The smart sofa construction with a built-in safety frame prevents you from sliding under the seat belt in the event of a collision. We do everything to keep you safe. Leather or artificial leather upholstery is standard in our Imperial-models (see page 14).

The bedroom includes a smart touch-switch and reading lights finished in modern black chrome. Electric adjustable headboard is included in KABE Imperial LT and LQB.

Choose between a large bathroom or a separate shower and toilet. In the latter solution, the entire bedroom area is separated from the living area by opening the doors on both sides all the way. Smart and private! ALDE Flow in boiler 3030 Plus is available as an option.

Imperial features Alde zone heating. With the system, you can control the heat in two separate zones, the back and the front areas of the motorhome. The bathroom is always comfortably heated via the return loop. The latest generation AC from Dometic (Fresh Jet FJX4 2200) is included to ensure comfortable travels year-round (read more on page 34).

A wireless router is standard in all Imperial-models, as is a wireless charger in the front of the motorhome.

KABE Smart Level keeps track of your gas level (with the use of one gas bottle, not for composite bottles), tyre pressure and the tilt of your motorhome when it's parked.

DISTRONIC is included in Imperial.

News! Load more and easier – more spacious garage area with larger external doors!

- ▶ Mercedes-Benz innovative MP Camera detects speed regulations (Intelligent Speed Assist) and lane departures (Active Lane Keeping Assist).
- ▶ Electric passenger window.
- ▶ Modern square sink.
- ▶ New hybrid stovetop with induction and 2 gas burners.
- ▶ Spacious new Thetford refrigerator in gloss black metallic (slim refrigerator in i790).
- ▶ Built-in oven with a glass front above the refrigerator.
- ▶ New design with a black stripe for overhead cabinets.
- ▶ Kitchen drawers with new top-mount black handles.
- ▶ Stylish new black handles for wardrobe doors, storage and cabinets.
- ▶ All chrome interior details, such as reading lights, faucets and shower now feature a black finish.
- ▶ Upgraded 5th forward-facing passenger seat is available as an option. You can easily remove the entire unit to save weight and space. Isofix and three-point seatbelt are included!
- ▶ Heated windshield.
- ▶ New option: AL-KO 2-channel air suspension.

- ▷ Wood laminate: Atlas Zeder
- ▷ Floor covering: Light
- ▷ Overhead cabinet doors front/back: Cashmere
- ▷ Kitchen cabinet doors: Sabbia High Gloss
- ▷ Kitchen countertop and backsplash: Corian Savannah and Latte with plexiglas
- ▷ Back wall: Cashmere
- ▷ Table and countertop: Latte laminate
- ▷ Entry area countertop: Latte laminate
- ▷ Bathroom countertop: Light Concrete laminate
- ▷ Bathroom cabinet doors: Atlas Zeder
- ▷ Wardrobe doors (bedroom): Atlas Zeder
- ▷ Leather collections: Hollywood (darkgrey) and Baltimore (beige)
- ▷ Artificial leather: Las Vegas (brown)

Travel Master Imperial i790 LQB

The smallest option in our Imperial-series, includes KABE's generous queen-size bed all the way in the back and a drop-down double bed above the dining area. With an additional convertible sofa-bed, overnight space for 5 is possible. Separate toilet and shower as well as a functional L-shaped kitchen creates a comfortable space.

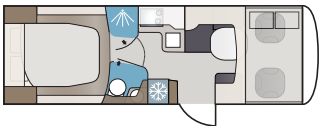

New! A practical pull-out wardrobe, combined with the new slim Thetford refrigerator, is included.

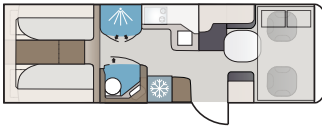

New rearwheel drive model! Travel Master Imperial R i810 LGB

The new R i810 LGB with rear-wheel drive allows you to tow heavy trailers – up to 2 tons! This vehicle is suitable for pulling a horse trailer or a smaller car, for example. With the option twin wheels, you get a total payload weight of up to 7 tons. Otherwise, the layout is similar to the i810 LGB, featuring a generous cargo space beneath the raised beds in the back. Naturally, the vehicle includes all the Imperial upgrades and sleeps up to six.

Burglar alarm including perimeter protection and internal motion detector (standard in Crown, Imperial)

BATTERY / CHARGER

Extra AGM 130 Ah battery, for the living section (standard in Imperial)

1800 W inverter (standard in Imperial)

Double 150 Ah lithium batteries

KABE Smart D Remote* enables you to manage the control panel remotely, from anywhere. KABE Smart D Remote is built with a 4G router with an internal antenna and a mobile modem (external antenna is available as an option). See page 27.

KABE Smart Level. The KABE Smart D panel includes KABE Smart Level with three useful functions. Smart Level tracks your gas level (with use of one gas bottle, not for composite bottles), tyre air pressure and the inclination of the motorhome.

* With your purchase of KABE Smart D Remote, a 36 month subscription is included. After 36 months, you will pay a yearly fee for the use of the app.

CONNECTIONS

Exterior gas outlet

ALARM / SAFETY

Central locks exterior doors and access doors (standard in Imperial)

SOUND / VISUAL

External router antenna

OTHER EQUIPMENT

With KABE's bike rack, travelling and storing your bikes is easier than ever. The bike rack has a pull-out function and with a special module that allows you to turn the handlebars, you can maximise the space in the garage.

Larger garage space for all your extras

Plenty of room for all your equipment! Choose a KABE model with extra large storage space. Our garage- and QB-models can fit bicycles, tables and chairs – everything you need for a successful holiday! A bike rack is available as an option! See page 98. As of model year 2025, increased size of the garage space and larger garage doors!

Pull-out plastic storage bins are included in our fully integrated motorhomes*. The bins are easy to remove and pack elsewhere. Smart and simple!

Practical tie-down anchors in the garage space keep everything in place.

Our large pull-out storage is perfect for all kinds of things. Available as an option for Novum and Royal.

In KABE's fully integrated models, the space between the double floors is utilised in a smart way*. In Travel Master i810 LQB, you can access the storage space from the garage area.

The solid access doors in the double floor of our fully integrated models makes it easy to access your luggage*.

* The new R i810 LGB has a higher frame, which reduces the storage space.
